Discussion Questions:

1. Discuss some of the challenges that contribute to the lack of participation in clinical trials by African Americans and how it impacts this population from benefiting from the clinical trials
2. What is your impression of the participants perceptions of facilitators of participation in clinical trials: Support, faith, self-advocacy?
3. What is your impression of the participants identified barriers to participation in clinical trials?
4. What are some ways research nurses and other providers can advocate for patients who face health inequities to reduce the disparities in clinical trials?
