

Cutaneous Neurofibroma Working Group

Ashley Cannon, PhD, MS, CGC

Dominique Pichard, MD

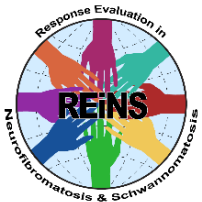

Response Evaluation In Neurofibromatosis Schwannomatosis
INTERNATIONAL COLLABORATION

Ashley Cannon, PhD, MS, CGC

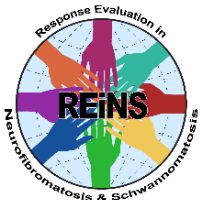

- Neuroscientist and Certified Genetic Counselor
- UAB, Dept. of Genetics
- cNF quantitative natural history
- Methylation, transcriptomic, and genomic alterations associated with cNF growth
- Selumetinib clinical trial targeting cNF

Dominique Pichard, MD

- Dermatologist
- NCI, Dermatology Branch
- cNF Selumetinib clinical trial targeting cNF
- 3D photography and HFUS for measuring cNF volume and size

cNF Working Group Members (to date)

- Dermatology

- Dominique Pichard, NIH
- Pierre Wolkenstein, Henri-Mondor Hospital
- Lu Le, UTSW

- Neurology

- Kaleb Yohay, NYU
- Victor-Felix Mautner, University Medical Center Hamburg-Eppendorf, Germany

- R&D

- Sharad Verma, NTAP

- Genetics

- Ashley Cannon, UAB

- Neuro-oncology

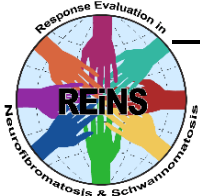

- Michael Fisher, CHOP
- Scott Plotkin, MGH
- Chie-Schin Shih, Riley Children's
- Jaishri Blakeley, JHH

- Neuropathology

- Anat Stemmer-Rachamimov

- Pediatric Oncology

- Brigitte Widemann, NIH

cNF Working Group Goals

- **Identify additional group members**
- Establish monthly group meetings
- Develop project ideas

cNF Working Group Goals

- Goals of the cNF working group to include:
 - 1) Identification of research priorities for cutaneous neurofibromas
 - 2) The development of recommendations for
 - clinical trial endpoints
 - clinical trial designs
 - outcome measures for clinical trials
