

# Introduction to C<sup>3</sup>D

---

Harris Corporation

January 2019

# Introduction

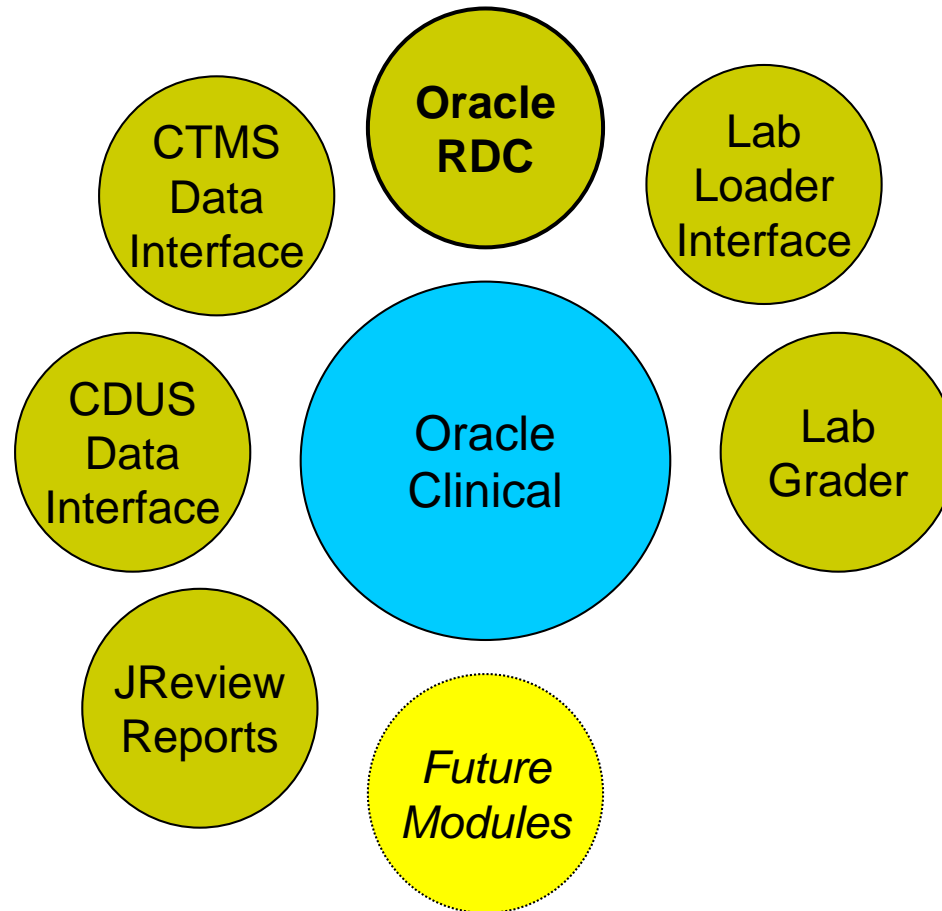

- C<sup>3</sup>D - **C**ancer **C**entral **C**linical **D**atabase
- eCRFs Instructions Manual
- Support
- Data Entry
- Audit-Trail
- Discrepancy Management
- Verification
- Approval
- Lab Loading

# What is C<sup>3</sup>D

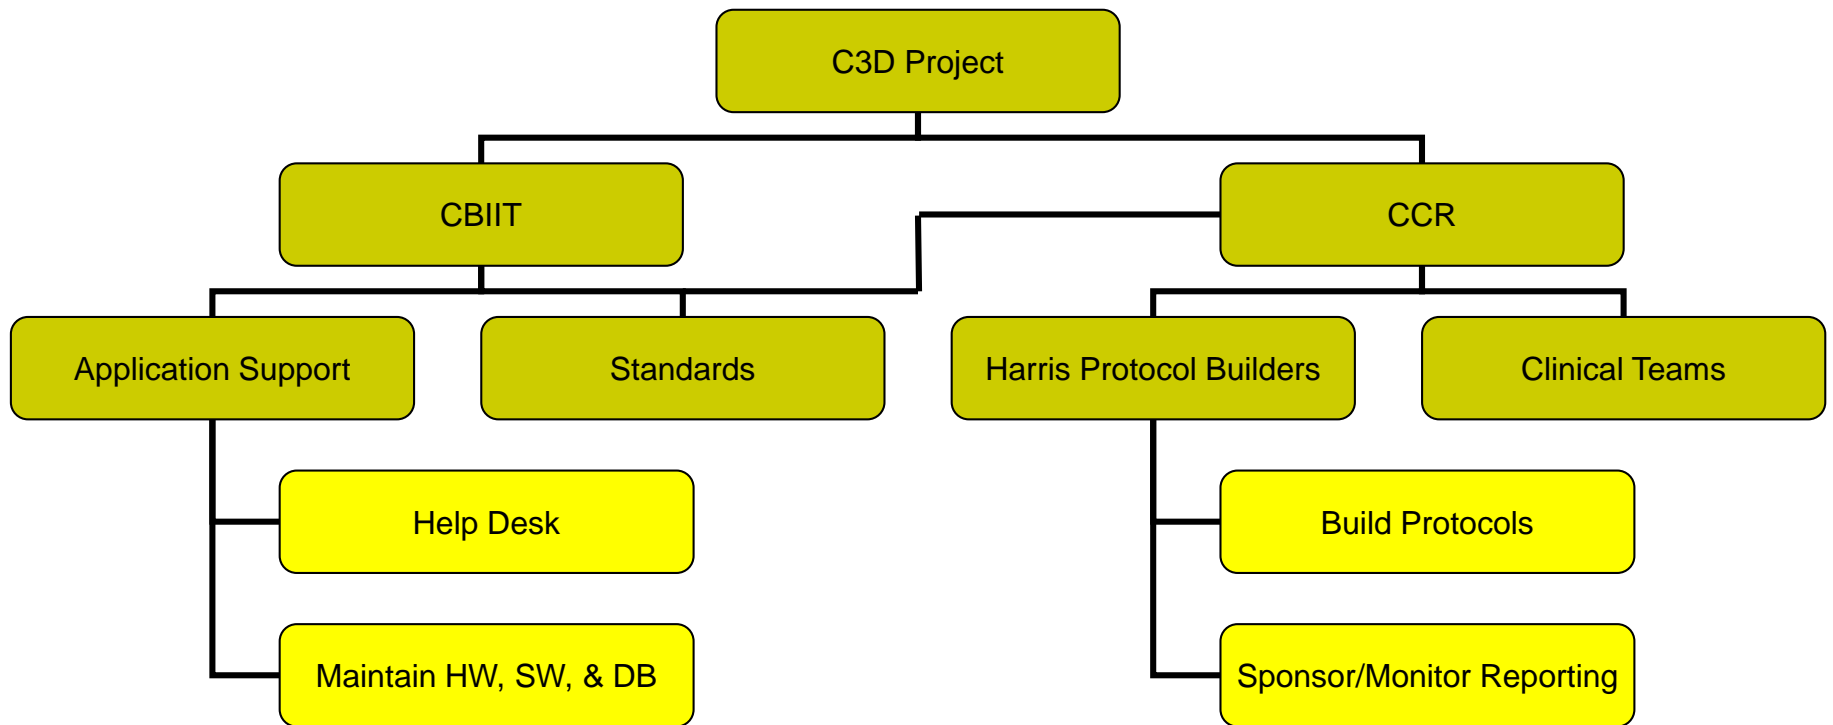

- Clinical Trials Data Management System
- RDC (Remote Data Capture) Data Entry
  - Accessible anywhere in the world (via a Windows computer and Internet Explorer).
- C<sup>3</sup>D supports data standardization, reuse, sharing, and interoperability through electronic Case Report Forms (eCRFs) based on Common Data Elements (CDEs)
- Based on Industry Standard Technologies

# Cancer Central Clinical Database C<sup>3</sup>D

# C<sup>3</sup>D Organization

# Designing Protocols in C<sup>3</sup>D

Control & Configurations Management Group (CCMG)

# CCR Standard Case Report Forms

- Library of Standard Forms & Rules is available as a starting point to build protocol specific forms & rules
- Detailed Instructions are available for each Standard Form <https://ccrod.cancer.gov/confluence/x/9QiJAw>
- Each Instructions includes:
  - ❑ General Description
  - ❑ eCRF Screenshot
  - ❑ Field Specific Description (Mandatory, Derived, etc.)
  - ❑ Validation/Derivation Rules

# eCRF Instructions Manual

## Course Initiation

Home > C3D Portal > [Training and Education](#) > ... > Course Initiation

**Home**

- C3D Portal
- Login
- Training and Education
- Sponsor Reporting
- Support

---

**Other Applications Documentation**

- GLC Web Application Users Manual
- TIGER-LC Web Application Users Manual

**Contents**

- [Purpose](#)
- [Course Initiation eCRF](#)
- [Validations](#)
- [Derivations](#)

**Purpose**

Record course initiation Start Date, Arm, Treatment Assignment Code (TAC) and Treating Institution.

**Course Initiation eCRF**

Field Name	Description / Instructions	Format
Visit Date <sup>(m)</sup>	Enter the date the course started.	DD-MMM-YYYY
Course # <sup>(d)</sup>	Sequential number of this course of treatment: first course = 1, second course = 2, etc.	5 digits
Start Date of Course <sup>(m)</sup>	Enter the date on which the course was started. This is the date on which a protocol stipulated medication (or treatment) was first administered.	DD-MMM-YYYY

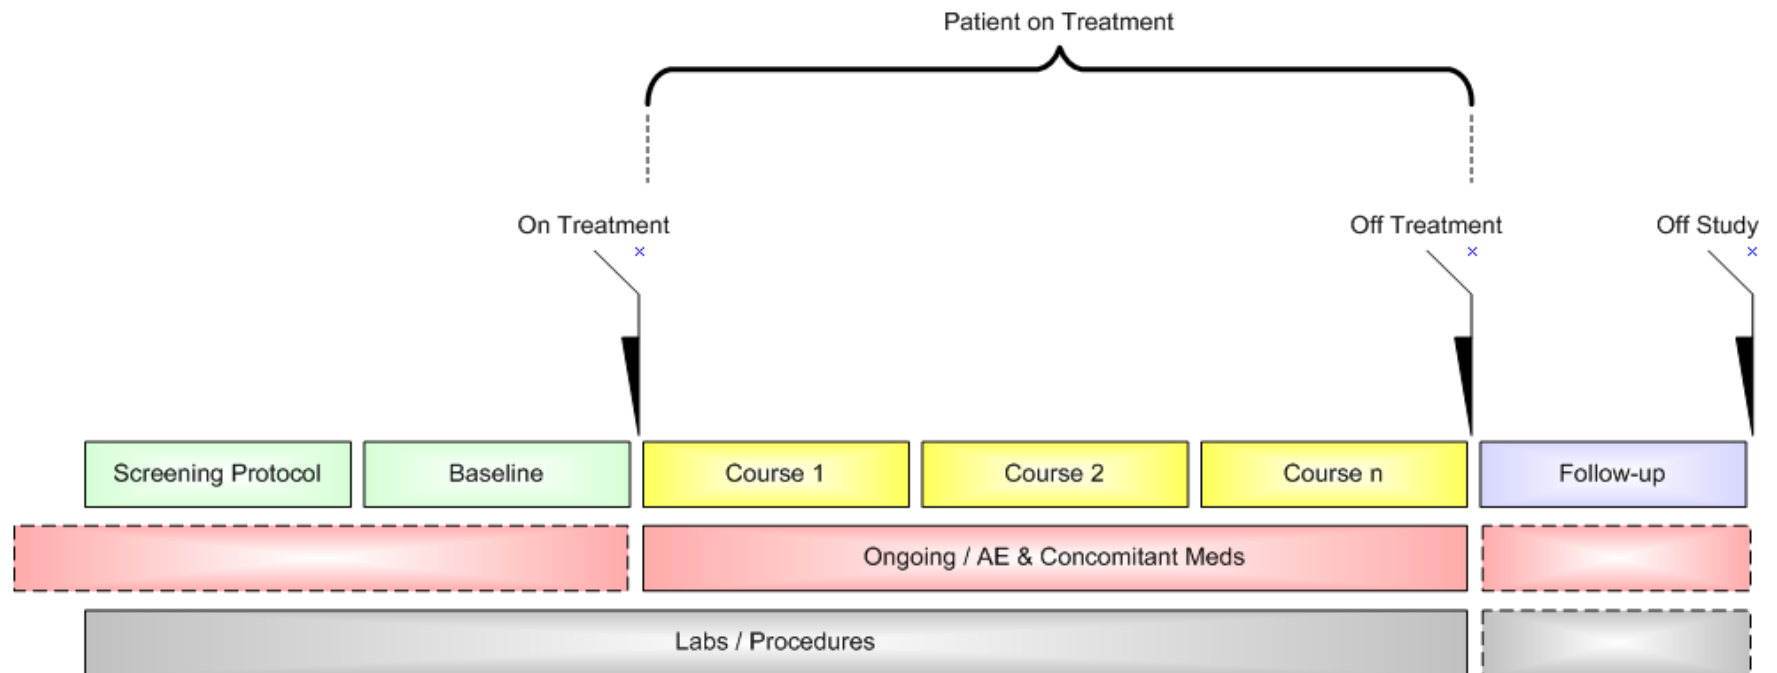

# CCR Standard Case Report Forms

- Screening/Baseline Forms
  - Eligibility, Enrollment, PE, Vitals, Baseline Symptoms, Prior Therapies, ...
- Courses/Cycles
  - Course Initiation, Study Medication Administration, PK, Course Assessment, PE, ...
- Labs
  - Blood Chemistry, Hematology, ...
- Ongoing
  - AE, Concomitant Measures, Extent of Disease, ...
- Off Tx / Follow-Up / Off Study

# C<sup>3</sup>D Protocol Phases

## C3D Study Phases

# Role Based Access

Access => Role	Browse	Enter Data	Manage Discrepancy	Verify eCRF	Approve eCRF
PI	Yes	No	No	Yes	No
Research Nurse	Yes	Yes	Yes	Yes	No
Data Manager	Yes	Yes	Yes	No	No
Monitor	Yes	No	Yes	No	Yes
QA	Yes	No	No	No	No
Protocol Builders	Yes	Yes	Yes	No	No

# NCI/CCR Confidentiality Agreement – Training Certificate

- At the end of the Training session, print, sign and fax the CCR Confidentiality Agreement to 240-541-4435. You can also scan and e-mail it back to the Trainer.
- Upon receipt of the CCR Confidentiality Agreement:
  - The request for your C3D account, password and access will be submitted. The C3D Help Desk will provision your C3D account within 2 business days.
  - The Certificate you attended the training will e-mailed to you.
  - Keep your signed CCR Confidentiality Agreement and the Training Certificate in your Study's regulatory binder.

# C<sup>3</sup>D Support

- CBIIT provides the first line of support for C<sup>3</sup>D related issues
- Contact
  - ❑ Email: [NCIAppSupport@nih.gov](mailto:NCIAppSupport@nih.gov)
  - ❑ Phone: 240-276-5541 (**Toll free**: 888-478-4423)
    - Telephone support is available Monday to Friday, 9:00 a.m. to 5:00 p.m. Eastern Time, excluding government holidays.
  - ❑ Additional Information at:  
<https://ccrod.cancer.gov/confluence/x/KwBYB>
- Protocol specific issues are escalated to the Protocol Builder by CBIIT
- Changes to Standards are escalated to Controls & Configuration Management Group (CCMG)

# Username & Password

- Username is typically your last name and first name initial.  
Ex: **smiths**
- Password rules:
  - ❑ Start with a letter;
  - ❑ Must containing **at least one number and one special characters** (Ex:! #);
  - ❑ Has to be at least 8 characters long;
  - ❑ The following special character could cause problems if used: \$ % & ' " /.
- About C<sup>3</sup>D Password:
  - ❑ **Do not share the password with others!**
  - ❑ Password needs to be changed the first time you login
  - ❑ Password expires every 4 months and needs to be changed
  - ❑ **Account gets locked upon three unsuccessful attempts. Contact C<sup>3</sup>D Help Desk to unlock account and/or get new password.**

# C<sup>3</sup>D Login Web Pages

- C<sup>3</sup>D is Accessible Worldwide
- C<sup>3</sup>D Production Login page:  
<https://octrials.nci.nih.gov/opa52/rdclaunch.htm>
- C<sup>3</sup>D provides a separate Data Entry environment to test protocol design
  - Test Login page:  
<https://octrials.nci.nih.gov/opa52/rdclauncht.htm>

# C<sup>3</sup>D RDC Home Page

The screenshot shows the Oracle RDC Onsite interface. At the top, it says "ORACLE RDC Onsite" and "Logged in as Marcelo Fontinha(DM, OCPR0D); Last Refresh 11-Apr-2017 13:57:09". Below this is a navigation bar with tabs for "Home", "Patient Casebooks", "Review", "Reports", and "Source Data Verification Plan". On the right of the navigation bar are links for "Logout", "Preferences", "Change Password", and "Help".

Below the navigation bar, there are dropdown menus for "Study" (set to "CCR\_ROS\_2011\_V1") and "Site" (set to "NCI"). Below these is a link for "Study and Site Summary".

On the left side, there is a sidebar with sections: "News", "Activities" (with links to "Review 550 Active Discrepancies", "Review 5 Other Discrepancies", and "Review Investigator comments"), and "Links" (with links to "App Support Ticket", "C3D Enhancement Form", "OCUG - Oracle Clin Users Group", "21 CFR Part 11", "eCRF Instructions Manual", and "Search on web").

The main content area is titled "Patient Search" and contains a table of patients. A yellow box labeled "Support Contact" points to the "Patient Search" header. Another yellow box labeled "Change Password" points to the "Change Password" link in the top navigation bar. A third yellow box labeled "eCRFs Instructions Manual" points to the "eCRF Instructions Manual" link in the sidebar.

Action	Patient Number	Last Modified	Casebook
	1010001	11-Apr-2017 12:2...	BOOK_0_26OCT2011
	1010002	11-Apr-2017 10:3...	BOOK_0_26OCT2011
	1010003	09-Nov-2016 16:3...	BOOK_0_26OCT2011
	1010004	12-Oct-2016 16:3...	BOOK_0_26OCT2011

	1010014	24-Jul-2014 09:49...	BOOK_0_26OCT2011
	1010015	28-Mar-2016 13:5...	BOOK_0_26OCT2011
	1010016	09-Sep-2015 16:2...	BOOK_0_26OCT2011

At the bottom of the page, there is a footer with "About RDC 5.1.0" on the left and "Home Patient Casebooks Review Reports Logout Preferences Change Password Help Copyright © 1993, 2014, Oracle and/or its affiliates. All rights reserved." on the right.

# Home Page Activities

1. Select a Study and a Site
  - Access to studies is controlled by user role
  - C<sup>3</sup>D remembers that last study used in prior login
2. Select a Patient
  - Click on a patient position to select it (row background turns yellow).  
**It is recommended to work one patient at time.**
    - To select multiple patients, use control + click on multiple patient positions.
3. Select an Action:
  - Multi-patient View (**Recommended**)
  - Single-patient View
  - Review Discrepancies
  - Review CRFs
  - Review Investigator Comments
  - Generate Patient Data Report
- Specify Patient Search Criteria (optional)
  - Enter a range of patient positions
  - Enter a patient reference (if field available)  
(ex: %123% to search for patients with 123 in their MRN)
  - Select Casebook form the Assigned Book dropdown list
  - Discrepancy Status
  - From the Show dropdown list, select Patients with data entered or without data entered
- Activity Links (optional)
  - Review ##,### Active Discrepancies
  - Review Investigator Comments

# Home Page Activities

The screenshot shows the Oracle RDC Onsite interface. At the top, it says "ORACLE RDC Onsite" and "Logged in as Marcelo Fontinha(DM, OCPROD); Last Refresh 11-Apr-2017 13:59:53". The navigation bar includes "Home", "Patient Casebooks", "Review", "Reports", "Logout", "Preferences", "Change Password", and "Help".

Annotations and activities:

- 1 – Select a Study and a Site:** Points to the "Study" dropdown (set to "CCR\_ROS\_2011\_V1") and the "Site" dropdown (set to "NCI").
- Activity Links:** Points to the left sidebar menu containing "News", "Activities", and "Links".
- Patient Search Criteria:** Points to the "Patient Search" section, which includes fields for "Range", "Assigned Book", "Show for Status", and "Discrepancy", along with "Search" and "Reset" buttons.
- 2 - Select Patient:** Points to the "Patients" table, where the row for patient ID "1010013" is highlighted.
- 3 – Select an Action:** Points to the "Action" dropdown menu, which is open and shows options like "Multi-Patient View", "Single Patient View", "Review Discrepancies", "Review CRFs", "Review Investigator Comments", and "Generate Patient Data Report".

The "Patients" table contains the following data:

Action	Multi-Patient View	Single Patient View	Review Discrepancies	Review CRFs	Review Investigator Comments	Generate Patient Data Report		
	1010007	1010008	1010009	1010010	1010011	1010012	1010013	1010014

At the bottom, it says "About RDC 5.1.0" and "Copyright © 1993, 2014, Oracle and/or its affiliates. All rights reserved."

# Navigating Casebook

- Casebook List
  - Click on Casebook dropdown list to select one of the available Casebooks (latest casebook is the default one)
- Visit List
  - Click on Visit dropdown list to switch to another Visits (Screening is the first visit)
- Casebook Multiple Patient Visit Layout
  - One row per Patient with identifier on the left
  - Visit's eCRFs along Columns
- Click on an eCRF icon to open it

# RDC Casebook

The screenshot shows the Oracle RDC Onsite interface. At the top, the header includes the Oracle logo, 'RDC Onsite', and user information: 'Logged in as Marcelo Fontinha(DM, OCPROD); Last Refresh 12-Apr-2017 08:46:32'. Below the header is a navigation bar with tabs for 'Home', 'Patient Casebooks', 'Review', 'Reports', and 'Source Data Verification Plan'. On the right of the navigation bar are links for 'Logout', 'Preferences', 'Change Password', and 'Help'. Below the navigation bar, there are filters for 'Study' (CCR\_ROS\_2011\_V1), 'Site' (NCI), and 'View' (Multiple). A 'Study and Site Summary' link is also present.

The main content area is titled 'Patient Casebooks' and includes a search bar showing '1 Patients Selected From Home Page'. Below the search bar are dropdowns for 'Casebook' (BOOK\_0\_26OCT2011) and 'Visit' (SCREENING\_BASE). There are buttons for 'Add Visit Page' and 'Add Other Page', and a 'View' dropdown set to 'Multiple'. A table displays patient data for the 'SCREENING\_BASE' visit. The table has columns for Patient Number, Elig, Enroll, MRN, Medhist, Prior\_Rad, Prior\_Surg, and Prior\_Thrp. The first row shows patient 1010013 with status icons for each column. A 'Columns Frozen' indicator shows 2 columns are frozen.

Yellow callout boxes with arrows point to the following elements:

- Casebook List**: Points to the 'Casebook' dropdown menu.
- Visits List**: Points to the 'Visit' dropdown menu.
- eCRFs within a visit**: Points to the 'Prior\_Rad' column in the table, which contains a red icon representing eCRFs.
- Patients listed on the left**: Points to the patient number '1010013' in the table.

At the bottom of the page, there is a footer with 'About RDC 5.1.0' and a navigation bar with links for 'Home', 'Patient Casebooks', 'Review', 'Reports', 'Logout', 'Preferences', 'Change Password', and 'Help'. A copyright notice reads: 'Copyright © 1993, 2014, Oracle and/or its affiliates. All rights reserved.'

# Patient Casebook Search Criteria

- Allows for additional Casebook Search Criteria not found in the Home Page Patient Search. Click on the > icon to open the Search area and then specify the desired criteria:
  - ❑ Patient:
    - Patient Position range
    - Assigned Casebook
    - Status
  - ❑ CRF Status:
    - Data Entry
    - Discrepancy
    - Verification
    - Approval
  - ❑ CRF Source:
    - Casebook
    - Visit
    - CRF Name
- Then click on **Search** button.
- Note that the search result only lists CRFs that have been created and saved. Planned CRFs that have not yet been used, are not displayed.

# Important eCRF Icons

-  Square icon: represents manual entry
-  Round icon: represents automated entry (batch loaded lab data or data migrated from legacy system)
-  A Blank Square icon with a green arrow indicates CRF has not been used. Click on it to begin data entry!
-  An eCRF just created and saved without data has no lines within the icon (Created Status)
-  eCRF 'Saved as Incomplete' has lines across half of the icon (Entry Started Status)
-  eCRF 'Saved as Complete' has lines across the whole icon (Entry Complete Status)
-  Blank Square icon indicates eCRF has been marked blank
-  Red icon indicates one or more open discrepancies

# eCRF Icons

RDC Icon Explanation								
	Entry expected	Marked Blank	Created	Entry started	Entry complete	Pass 2 started	Pass 2 complete	Batch Loaded
Entry Status:								
Discrepancies:		Active		Other				
Verification:		Requires Re-verification		Verified				
Approval:		Requires Re-Approval		Approved				
Locking:		Locked						
Unplanned:		Unplanned CRF						

# Entering New Patient Data

- From the C<sup>3</sup>D Home Page: click on a patient position that has the question mark inside the pers 
  - Then click on the Action dropdown and select “Multi-Patient View”
- From the Casebook Page: expand the Search section, click on the **Reset** button, select **Patients with no Data Entered** from the **Status** dropdown list and click on the **Search** button.
- On the row for the desired patient position, click on an empty eCRF icon with a green arrow  to begin data entry in a new eCRF.
- **Quick Tips:**
  - Use the patient positions numbers according to those assigned by Central Registration Office (CRO).
  - The total number of Patients available for entry are governed by protocol accrual ceiling. Request additional patient positions if protocol has been amended and accrual ceiling increased.

# Electronic CRF (eCRF)

- eCRF Header and Footer display eCRF identification information
- Visit Date is mandatory for most forms:
  - ❑ **In Lab eCRFs, Visit Date is the Lab Sample Collection Date**
  - ❑ Interpret as Evaluation Date, Administration Date, Initiation Date, Lab Date, etc. Refer to the eCRFs Instructions Manual.
  - ❑ Visit Date is not needed on eCRFs on Ongoing Visit, but required everywhere else.
- Navigate within eCRF by:
  - ❑ Using Tab and Shift-Tab keys or left Mouse click to place the cursor on a field.
  - ❑ Use the scrollbars or the Toolbar page navigation icons to go to a different page.
    - The last page of an eCRFs is a general comments page.
- **Quick Tip:**
  - ❑ Up to 3 eCRFs can be open for simultaneously for data entry. An additional 2 eCRFs can be opened in read-only mode.
  - ❑ **It is strongly recommended to only have one eCRF open for data entry to avoid entering data in the wrong patient. Close the eCRF when no longer using it.**

# Electronic CRF (eCRF)

- Fields with magnifying glass  have a pick list of acceptable values.
  - ❑ With the pick list shown, press **CTRL + F** to search the pick list.
  - ❑ A typed in value that is not on the pick list will create a discrepancy. If a value needs to be added to the pick list, contact your Team Lead.
  - ❑ **Using the Pick List is particularly important in these two fields below because the MedDRA code is derived 'behind-the-scenes'.**
    - Enrollment Disease Term
    - Baseline Symptoms and Adverse Events CTCAE Term.
- Enter Dates as:
  - ❑ Complete dates for Current Information (ex: 5/23/2014, 5-23-2014 or 05232014)
  - ❑ MMYYYY for Prior Information is acceptable when complete date cannot be obtained (ex: 05-00-2014, 05/00/2014, 05002014 )
  - ❑ Click on the calendar icon  to display a popup calendar and click on a date.

# Saving eCRF

- Click on the  green floppy disk icon to save the eCRF.
  - Save Often!! Especially while entering Ongoing Information such as Adverse Events and Concomitant Medications.
- Choose how to save the eCRF:
  - **Save Incomplete**
    - Only save CRF as incomplete for a short period of time.
    - Discrepancies are not created for mandatory fields that have not been touched (cursor not placed in field).
    - Overnight validation checks and derivations are not executed.
    - Verification and Approval cannot be done.
    - CRF's Data not available to be submitted via CTMS and CDUS!
    - Audit-trail enabled.
  - **Save Complete**
    - eCRF Status changes to Entry Complete.
    - All validation checks and derivations are executed.
    - Verification and Approval can be done.
    - Audit-trail prompts user for a reason for the change!

- **Quick Tip:**
  - For Ongoing Tabular eCRFs, save as **Complete** once the first row is entered. This will guarantee that validation checks and derivations are executed and eCRF's data are used in checks from other eCRFs and for submissions.

# Data Entry Change Reason

- After an eCRF is 'Saved Complete', the audit-trail will prompt the user for a Change Reason whenever data previously saved is being changed.
- Change Reason becomes part of the Audit-Trail along with date of change and user name.
- Comments can be provided in the change reason to further explain.
- **Quick Tip:**
  - ❑ Do not use personnel/patient names or identifiers in the comments.

# Audit Trail

- After an eCRF is 'Saved Complete', audit-trail is kept for any previously saved data that are changed.
- Use the eCRF Highlight dropdown **Audit History** option to highlight, with a blue background, the fields that have audit-trail.
- On the bottom part of the eCRF, click on the horizontal handle  to open the Audit History panel.
- Review the Audit-trail details at the **Audit History Panel** opened at the bottom of the eCRF window.
- **Quick Tips:**
  - ❑ Auditing begins as soon as the eCRF is 'Saved Complete'.
  - ❑ A newly entered row in an eCRF previously saved as complete will not prompt user for a reason why data is being changed because it is new row. However, changing or entering data in a previously saved row will trigger the audit-trail and prompt the user for a change reason.
  - ❑ **Do not share user IDs and passwords!**

# Audit Trail

The screenshot shows the Oracle RDC Onsite: Data Entry interface. At the top, the title bar reads "ORACLE RDC Onsite: Data Entry" and "Preferences Help". Below the title bar, the study information is displayed: "Study: CCR\_ROS\_2011\_V1, Site: NCI, Patient: 1010013, Casebook: BOOK\_0\_26OCT2011 - (Marcelo Fontinha - Data management role) Server Profile | Previous CRF | Next CRF".

The main content area includes a "Highlight" dropdown menu set to "Audit History". A yellow callout box points to this dropdown with the text "Highlight Audit History Option".

Below the dropdown, the "CENTER FOR CANCER RESEARCH" logo is visible. The study details are: "Study CCR\_ROS\_2011\_V1", "Site NCI", "Visit OFFSTUDY", and "Patient". The "Visit Date" is "11-APR-2017". There are checkboxes for "Mark CRF Blank" and a "Comment" field.

A section titled "SURVIVAL" contains several fields: "Date of Death" (11-APR-2017), "Cause of Death (Presumed)", "Autopsy Results Available?" (with a blue background and a handle), "Cause of Death (Autopsy Finding)", "Explain 'Other' Cause of Death", and "Explain 'Other' Cause of". A yellow callout box points to the blue background with the text "Field with blue background indicates presence of Audit-trail". Another yellow callout box points to the handle on the "Autopsy Results Available?" field with the text "Click on this handle to show/hide the Audit History panel."

At the bottom, the "Audit History: Autopsy Results Available?" panel is expanded, showing a table of changes:

Date	Changed To	By	Reason	Comment	Details
12-APR-2017 09:3Y		Marcelo Fontinha (DM)	CRA CORR-SRC	Autopsy results made available on 4/12/2017	[Details]
12-APR-2017 09:3U		Marcelo Fontinha (DM)			[Details]

A yellow callout box points to the table with the text "Audit-trail details".

At the bottom right, the footer reads "Copyright © 1993, 2014, Oracle and/or its affiliates. All rights reserved".

# Entering/Viewing Laboratory Data

- Laboratory Data eCRFs are designed with dedicated Visits (Hematology, Urinalysis, etc.) and only one eCRF is planned initially per Visit.
- Additional eCRFs can be added by selecting a Patient and clicking on **Add Visit Page**.

The screenshot displays the ORACLE RDC Onsite interface. At the top, the user is logged in as Marcelo Fontinha (DM, OCPROD) with a last refresh time of 12-Apr-2017 09:49:55. The navigation menu includes Home, Patient Casebooks, Review, Reports, and Source Data Verification Plan. The current study is CCR\_ROS\_2011\_V1 and the site is NCI. The view is set to Multiple. The main content area shows a search result for 1 patient selected from the home page. Below this, the Patient Casebooks section is visible, with Casebook: BOOK\_0\_26OCT2011 and Visit: URINALYSIS. The Action menu includes Add Visit Page and Add Other Page. A table below shows the patient selection:

	Patient Number	Urinalysis
	1010013	62

Two yellow callout boxes provide instructions: "1. Select Patient" points to the patient number 1010013, and "2. Click Add Visit Page" points to the Add Visit Page button.

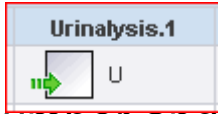

# Entering/Viewing Laboratory Data

- Click on **Continue** to confirm the eCRF Page to add.

CRF Short Name	CRF Name
Urinalysis	URINALYSIS

- Click on **Continue**
  - Sub-visit indicates the number of the additional unplanned CRF added to the Visit.

Selected CRF: Urinalysis  
Select Sub-visit: 1

- Click on the new Unplanned Lab eCRF icon  to begin data entry.
  - Unplanned CRF have the same page number and the planned one followed by the letter U and the sub-visit number

		URINALYSIS	
	Patient Number	Urinalysis	Urinalysis.1
	1010013	62	62 U1

# Entering/Viewing Laboratory Data

- Enter the Lab Date (**Sample Collection Date**).
- Enter the Lab Time (**Sample Collection Time**) using military time (seconds are optional and default to 00 if not entered). **Lab Time is required.**
- Optionally, choose a Lab Source from the Lab dropdown list.
  - **Outside** option is normally used to indicate panel was done in a location other than the patient's site.
  - If Units of Measurement (UOM) and Normal Ranges have been predefined for your site, select your site from the list and C<sup>3</sup>D will automatically populate the UOM and Normal Range.
- C<sup>3</sup>D will derive the Range Indicator and Grade the lab result according to CTEP's CTCAE Criteria:
  - [http://ctep.cancer.gov/protocolDevelopment/electronic\\_applications/ctc.htm](http://ctep.cancer.gov/protocolDevelopment/electronic_applications/ctc.htm)

# What is a Discrepancy?

- A discrepancy is the failure of entered data to pass a validation check as applied by C<sup>3</sup>D.
- C<sup>3</sup>D validation checks are defined based on the definition of the fields, logical rules, protocol specifications, and sponsor requirements.
- Discrepancies are tools to assist teams in identifying potential data inconsistencies and facilitate real-time QA of data.
- **Quick Tips:**
  - ❑ Discrepancies do not cover 100% of possible data inconsistencies.
  - ❑ Clinical judgment may supersede discrepancy logic.

# C<sup>3</sup>D Discrepancy Types

- Univariate
  - ❑ Generated during data entry/load when data is in some way different from the Question's definition (e.g. mandatory, length, type, range, pick list, etc.)
- Multivariate
  - ❑ Based on a condition on one or more questions as defined in a validation rule
  - ❑ Generated on-line or when validation rules are run (eCRF must be saved as Complete.)
- Manual
  - ❑ Generated by data entry operator seeking clarification on data values

# Some Typical Discrepancies

Types	Example:	Resolutions
Data Type	Text entered in numeric or date field.	Review Source Document and enter appropriate data.
Length Problems	Too many characters entered.	Use NIH accepted Abbreviations.
Value not on the Pick List	Generic Agent not present in Concomitant Agent Pick List and user typed in an Agent not found on the Pick List.	Search for alternates. Consult Team Lead. Request value to be added to Pick List.
Mandatory Value	Required Field left empty.	Refer to Source Document. Design modification.
Partial/Invalid Dates	00-10-2010 entered, but field requires a full data such as 01-01-2010	Refer to Source Documents. Check Day Month Year order. Check that date is not in the future.

# Outstanding Discrepancies in a Study

- Total number of Discrepancies in a study are shown in the Home Page Activities section
- Clicking on the **Review ### Active Discrepancies** will present a lists of all discrepancies under the Review Page.
- eCRF containing discrepancies are shown in Red icon
- **Quick Tip:**
  - Data Managers should manage their discrepancies every morning to help ongoing QA of data.

# How are Univariate Disc. Created?

- Univariate Discrepancies warning pop-up presented during data entry when the entered value does not match the field definition:
  - Mandatory field left empty
  - Text entered in a Date or Numeric Field
  - Too many characters entered
  - Value is not on the Pick List (**some pick lists are case sensitive!**)
    - A “Lookup Thesaurus” is a non-study specific picklist which the values are “controlled” - they either have all the values needed or a change will require approval.
  - Partial Date entered when a complete date is required; or less than the expected date components entered (ex: Only 2001 entered for year when date field expects also a month)
- Data Entry operator can:
  - Cancel the pop-up and fix the value
  - Or accept the discrepancy and address it later
- **Quick Tip:**
  - Univariate Discrepancies are reassessed when date changes and during Batch Validation when field design or validation check change.

# How are Multivariate Disc. Created?

- Multivariate Discrepancies are created based on validation rules programmed in a study
  - ❑ Example 1: Create Discrepancy if the entered BSA is not within 10% of the calculated BSA
  - ❑ Example 2: Create Discrepancy if Date of Histological Confirmation is before Date of Diagnosis
- **Quick Tip:**
  - ❑ Rules available as a standard on each eCRF are summarized in the eCRFs Instructions Manual.
  - ❑ Though several standard rules are implemented for each eCRF as specified on the eCRFs Instructions Manual, clinical teams can request them to be turned off or modified to comply with the Protocol.

# Evaluation of Multivariate Rules

- Validation Rules are evaluated:
  - ❑ on-line validation rules are evaluated upon completion of a CRF **Saved as Complete**
  - ❑ during an overnight batch validation session for CRFs **Saved as Complete**
- Multivariate Discrepancies are displayed in the same manner as Univariate Discrepancies. The Discrepancy Details panel indicates the type of Discrepancy.
- **Quick Tip:**
  - ❑ Complex rules run overnight.

# How to Address a Discrepancy

- Review Discrepancy Details
- Resolve the discrepancy by:
  - Consulting Source Documentation and;
  - Modifying incorrect data and specifying change reason;
  - Requesting eCRF Design and/or Validation Rule Change.
    - Include Protocol section reference if request supported by Protocol.
- **Quick Tip:**
  - System obsoletes univariate discrepancy automatically when data is corrected and complies with design/rules.
  - Multivariate Discrepancies are only re-evaluated during overnight Batch Validation.

# How to Address a Discrepancy

The screenshot shows the ORACLE RDC Onsite: Data Entry interface. The top navigation bar includes 'ORACLE RDC Onsite: Data Entry', 'Preferences', and 'Help'. The study information is 'Study: CCR\_ROS\_2011\_V1, Site: NCI, Patient: 1010013, Casebook: BOOK\_0\_26OCT2011 - (Marcelo Fontinha - Data management role) Server Profile'. The 'Highlight' dropdown is set to 'Active and Other Discrepancies'. The main content area shows the 'CENTER FOR CANCER RESEARCH' logo and study details: 'Study CCR\_ROS\_2011\_V1', 'Site NCI', 'Visit SCREENING\_BAS', and 'Visit Date 11-APR-2017'. There are checkboxes for 'Section blank?' and 'Mark CRF Blank'. Below this is a table titled 'BASELINE SYMPTOMS' with columns: 'Date of Onset', 'Date Resolved', 'System Organ Class', 'CTCAE Term', and 'Symptom Descriptio'. The first row has '01-JAN-2001' and '01-FEB-2001'. The second row has '00-00-2002' highlighted in red. A yellow callout box points to this row with the text: 'Fix Data as indicated in the Discrepancy Text'. To the right, a 'Discrepancy' panel is open, showing a list of discrepancies: 'Grade (row 1)', 'Related To Disease? (row 1)', 'Date of Onset (row 2)', 'CTCAE Term (row 2)', and 'Grade (row 2)'. Below the list is a 'Details' section with 'Related Values' and 'History' buttons. At the bottom right, an 'Action' dropdown menu is open, showing options: 'Send to CRA', 'Send to Investigator', 'Close - resolved', 'Closed - no resolution', and 'Send for classification'. A yellow callout box points to this menu with the text: 'If Data cannot comply with Design/rules, and in rare exceptions, select an Action from Pull Down Menu to Manually Close the Discrepancy.'

# CRIS to C<sup>3</sup>D Lab Data Flow

# What is LLI?

- LLI is a utility to review and identify specific Lab Test Results to be downloaded from the CRIS/CDW into C<sup>3</sup>D
- Login Link:  
<https://octrials.nci.nih.gov/opa52/labloadinter.htm>
- Username & Password are same as C<sup>3</sup>D

# LLI Search Screen

The screenshot displays the 'Lab Load Interface' window, which is an Oracle application. The window title bar includes 'Action', 'Window', and 'Help' menus. The main area is titled 'Lab Load Interface Lab Panel Search' and contains several sections:

- Search Criteria:** Includes text boxes for 'Study', 'Pt', 'Lab Panel', and 'C3D Test Name'. It also features dropdown menus for 'Date Relation' and 'Time Relation', and input fields for 'DD', 'MON', and 'YYYY'.
- Action Buttons:** Includes 'Search' and 'New Search' buttons.
- Search Results:** Contains 'Select All' and 'Unselect All' buttons above a table.
- Table:** A table with columns 'Study', 'Pt', 'Lab Panel', and 'Sample DateTime'. The first row is highlighted in cyan, indicating it is selected.
- Action Buttons (Right):** Includes 'Move Panel(s) to Load Cart', 'Move Panel(s) to Archive', and 'View All Labs for Panel and Date' buttons.
- Exit:** An 'Exit' button is located at the bottom right of the main area.

The status bar at the bottom of the window displays 'Record: 1/1' and '<OSC>'.

Search

New Search

- **Searching**

- Can search by Study, Patient Number, Lab Panel, OC Lab Question, Date and/or Time
  - Each search field contains Pick List.
  - Date and Time allows the ‘%’ wild card
  - Date and Time provide the additional option of:
    - “On or Before”, “On or After” and “LIKE” comparisons
    - Partial dates can be entered as %NOV%

# LLI Search Screen Results

- **Search Results**
  - The result set lists Lab Panels that have at least one lab test available for loading that meet the criteria entered into the search fields.
  - The sort order can be changed using the column headings.
  - Results can be selected/deselected for processing by using the individual select check box or Select Buttons.
  - Entire panels of lab tests can then be moved to the Load Cart or Marked for Archive.
  - Clicking “View All...” button or by double clicking the record presents the Work Cart with specific Lab Test Results for that panel.

 Others

- **Work Cart**

- Shows Entire Panel, including previously loaded and missing Lab Tests
- The list can be filtered using the “Load Flag” radio buttons.
- Sort by Lab Test Panel Order (R), Test Name, Results, etc.
- Results can be selected/deselected for processing by using the individual select check box or Select Buttons.
- Once selected, the lab tests can be moved to the Load Cart or Archived

# LLI Special Labs

- Some Labs need to be handled via the Special Labs tab.
  - These are labs which the Source has been manually entered in CRIS and they may have, or not, been mapped to a C3D Test Name.
1. Click on Special Labs tab
  2. Select the Study and Patient
  3. Click on Search

# LLI Special Labs

- Notice that two C3D Test Name have been mapped to two Sources.

Source	Test Name	Intent
CD4 Cells	STR_CHI_D_CD4_PC_BLD	Short Tandem Repeat Chimerism, Donor, Clusters of Differentiation 4 (CD4), %, Blood
CD8 Cells	STR_CHI_D_CD8_PC_BLD	Short Tandem Repeat Chimerism, Donor, Clusters of Differentiation 8 (CD8), %, Blood

- However, there are other Sources that have C3D Test Name **STR\_CHI\_VAL1**
  - These are not mapped

These have already been mapped

# LLI Special Labs

- See Source 'bone marrow CD4'. It is associated with test STR\_CHI\_VAL1 – **It has not mapped.**
- If this test/result is needed in C3D, check Protocol design/calendar and CRIS order/result.
- If this test has the same intent as STR CHI D CD4 PC BLD, then click on the ellipsis and select it from the list.  
Also, submit a ticket to the C3D Help Desk requesting the mapping of this source and C3D Test Name.
- If this test has a different intent, then a new C3D Test Name has to be created and mapped to the 'bone marrow CD4' source. Submit a ticket to the C3D Help Desk including a description of the intent of the test and to which Source it should be mapped. Provided Study, Patient, Source and Date/Time.

Source	CD4 cells
% Donor, Source 1	66.0 [0.0-100.0 %]
STR Locus, Other Source	FGAD13S317
Comment	This test uses predetermined differences in Short Tandem Repeats to quantitate the proportion of donor nucleated cells in samples obtained from transplant recipients. Normal ORDER COMMENT: CD4 *do not draw, specimen in lab* 002DQVHCH/STR Chimerism, Other Source: CD4 *do not draw, indspecimen in lab*

Source	CD8 cells
% Donor, Source 1	51.0 [0.0-100.0 %]
