

NCI Core Open House

March 7, 2018 from 2:30-4:00 PM

Bldg. 35 Atrium

Light refreshments provided

Meet with Core managers from Bldg. 37, Bldg. 41 and Frederick Cores to discuss projects and view posters summarizing capabilities and resources available to all CCR investigators.

Bldg 41

- High-Throughput Imaging Facility
- LRBGE Optical Microscopy Core

▶ Meet

Bldg 37

- CCR Genomics Core
- CCR Confocal Core
- NanoScale Protein Analysis
- Mass Spec Resource
- LGI Flow Cytometry
- DEPArray Technology
- LGCP Microscopy Core
- LCMB Microscopy Core
- CIP Microbiome and Genetics Core
- Single Cell Analysis Facility

▶ Learn

Frederick

- Mass Spec/Protein Characterization
- Optical Microscopy and Analysis
- Electron Microscopy
- Protein Expression Lab
- Genomics Lab
- Sequencing Facility
- Center for Molecular Microscopy
- Advanced Biomedical Computing Center

▶ Discuss
