Creating Data Listing Reports

Data listing reports contain all the data associated with a study form (such as Enrollment or Adverse Events).

After logging into Rave, navigate to the relevant study and select its **Rave Modules** link.

This will produce a new report window. Choose "Clinical Views" as the **Data Source** from the dropdown list.

After the data source is selected, **Form** and **Rows per page** fields will appear. Click on the **Form** dropdown and select the desired form. In this instance, all data associated with the Adverse Events form will be generated. The number of rows to be displayed in each page of the report is an optional field.
