

Manipulation of the Host Immune Response: Exploring the Crossroads of Infectious Disease and Cancer

JUNE 12, 2008 | 9:00 AM–5:00 PM | NATCHER CONFERENCE CENTER BALCONY B

KEYNOTE SPEAKERS:

Gail Bishop, Ph.D.

Holden Comprehensive Cancer Center,
The University of Iowa

The Many Faces of TRAF3 in Regulation of Lymphocyte Activation

Robert Siliciano, M.D., Ph.D.

Johns Hopkins University School of Medicine

A Missing Dimension in the Analysis of Anti-HIV Drugs and Vaccines

Weiping Zou, M.D., Ph.D.

University of Michigan School of Medicine

Immune Imbalances in the Cancer Microenvironment

The Tenure-Track Investigators Committee of the Center for Cancer Research (CCR) at the National Cancer Institute (NCI) invites you to an interdisciplinary symposium co-sponsored by CCR and the National Institute of Allergy and Infectious Diseases (NIAID). Leading scientists from across the country and CCR and NIAID tenure-track investigators will share their research with the greater NIH community to foster interactions and forge future collaborations.

The agenda can be viewed at www.palladianpartners.com/tenuretrack08.

SPEAKERS FROM DIR, NIAID

Carolina Barillas-Mury, M.D., Ph.D.
Laboratory of Malaria and Vector Research

Silvia Bolland, Ph.D.
Laboratory of Immunogenetics

Catharine Bosio, Ph.D.
Laboratory of Intracellular Parasites

Fadila Bouamr, Ph.D.
Laboratory of Molecular Microbiology

SPEAKERS FROM CCR, NCI

Kevin Gardner, M.D., Ph.D.
Laboratory of Receptor Biology and Gene Expression

Arthur A. Hurwitz, Ph.D.
Cancer and Inflammation Program, Laboratory of Molecular Immunoregulation

Vineet KewalRamani, Ph.D.
HIV Drug Resistance Program

Jacek Lubkowski, Ph.D.
Macromolecular Crystallography Laboratory

In particular, the symposium will highlight the importance of connecting basic, translational, and clinical research and will explore the commonality of host immune responses to both cancer and infectious diseases. To this aim, a poster session will be held in the afternoon. This meeting is open to interested individuals from academia, government agencies, and industry at all levels of research involvement.
