

CCR Research Nurse Virtual Orientation
Via WebEx: <https://cbiit.webex.com/meet/nesse>

Day 1: Thursday, December 9, 2021
9:00 AM – 11:30 AM

Introduction to Clinical Research Nursing

ONS CTN Competency Category A: Adherence to Ethical Standards

The oncology clinical trials nurse demonstrates leadership in ensuring adherence to ethical practices during the conduct of clinical trials in order to protect the rights and well-being of patients and the collection of quality data.

ONS CTN Competency Category C: Informed Consent

The oncology clinical trials nurse demonstrates leadership in ensuring patient comprehension and safety during initial and ongoing clinical trial informed consent discussions.

Day 2: Wednesday, December 15, 2021
9:00 AM – 11:30 AM

ONS CTN Competency Category B: Protocol Compliance

The oncology clinical trials nurse facilitates compliance with the requirements of the research protocol and good clinical research practice while remaining cognizant of the needs of diverse patient populations.

ONS CTN Competency Category E: Management of Clinical Trial Patients

The oncology clinical trials nurse uses a variety of resources and strategies to manage the care of patients participating in clinical trials, ensuring compliance with protocol procedures, assessments, and reporting requirements as well as management of symptoms.

Day 3: Monday, January 10, 2022
9:00 AM – 11:30 AM

ONS CTN Competency Category F: Documentation and Document Management

The oncology clinical trials nurse provides leadership to the research team in ensuring accurate source documentation and maintaining essential documents that validate integrity in the conduct of the clinical trial.

ONS CTN Category G: Data Management and Information Technology

The oncology clinical trials nurse provides leadership in the collection of data and demonstrates basic information technology and computer skills to ensure data quality and patient confidentiality.

Day 4: Friday, January 28, 2022
9:00 AM – 11:30 AM

ONS CTN Competency Category D: Patient Recruitment and Retention

The oncology clinical trials nurse utilizes a variety of strategies to enhance recruitment and retention while being aware and respectful of the needs of diverse patient populations.

ONS CTN Competency Category H: Financial Stewardship

The oncology clinical trials nurse identifies the financial variables that affect research and supports good financial stewardship in clinical trials.

ONS CTN Competency Category I: Leadership and Professional Development

The oncology clinical trials nurse utilizes leadership skills to inspire and motivate the clinical research team towards the common goal of conducting quality clinical research to enhance cancer care across the continuum and takes responsibility for his or her ongoing professional development.
