

Introduction to C³D

Harris Corporation

Jan 2015

Introduction

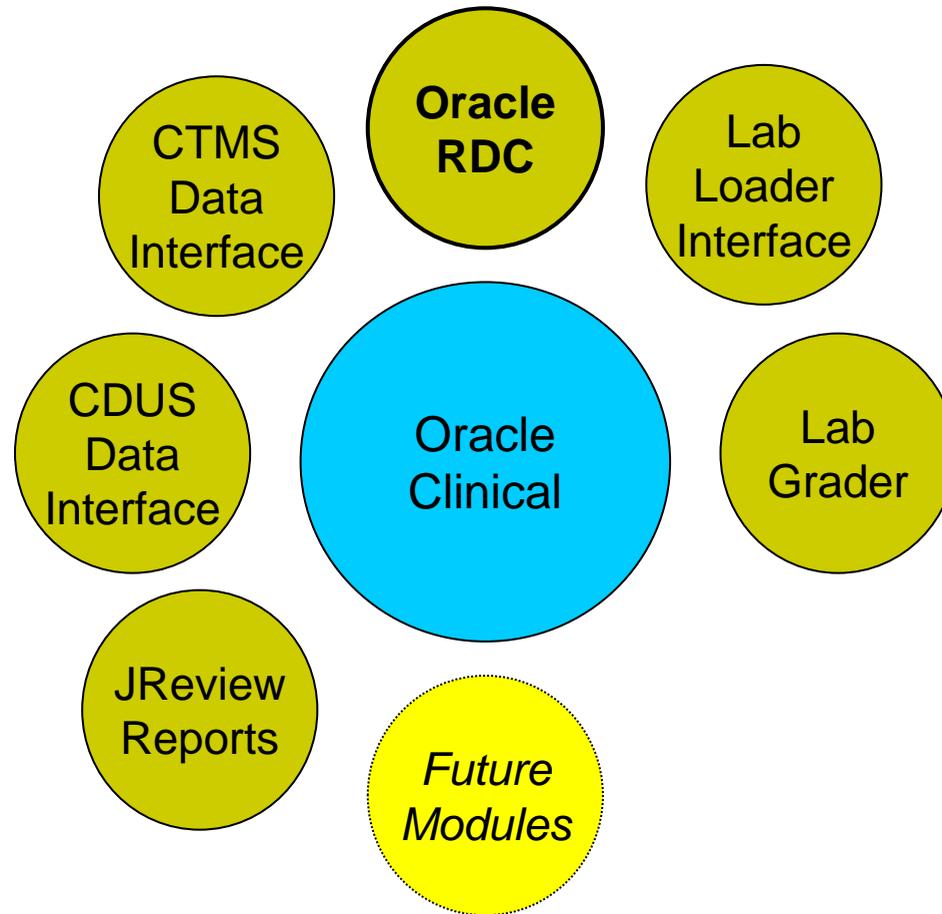

- | C³D - **C**ancer **C**entral **C**linical **D**atabase
- | eCRFs Instructions Manual
- | Support
- | Data Entry
- | Audit-Trail
- | Discrepancy Management
- | Verification
- | Approval
- | Lab Loading

What is C³D

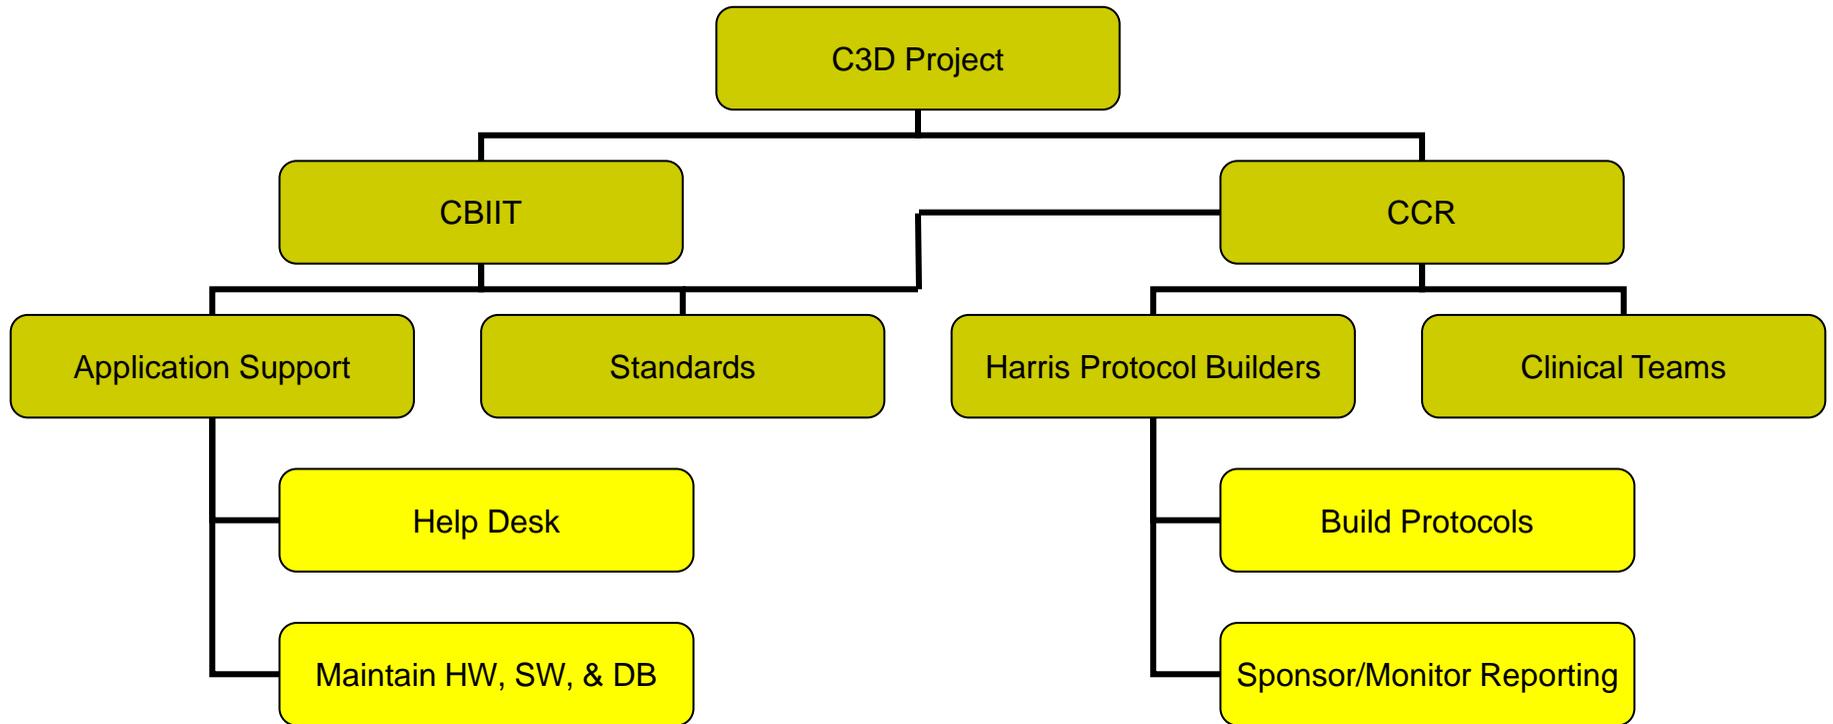

- | Clinical Trials Data Management System
- | RDC (Remote Data Capture) Data Entry
 - q Accessible anywhere in the world (via a Windows computer and Internet Explorer).
 - q **For studies prior with Clinical Center Number prior to 2012:**
The Java Runtime Environment (JRE) version 1.7.0_45 (or later) is required.
- | C³D supports data standardization, reuse, sharing, and interoperability through electronic Case Report Forms (eCRFs) based on Common Data Elements (CDEs)
- | Based on Industry Standard Technologies

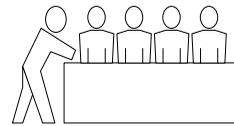

Cancer Central Clinical Database C³D

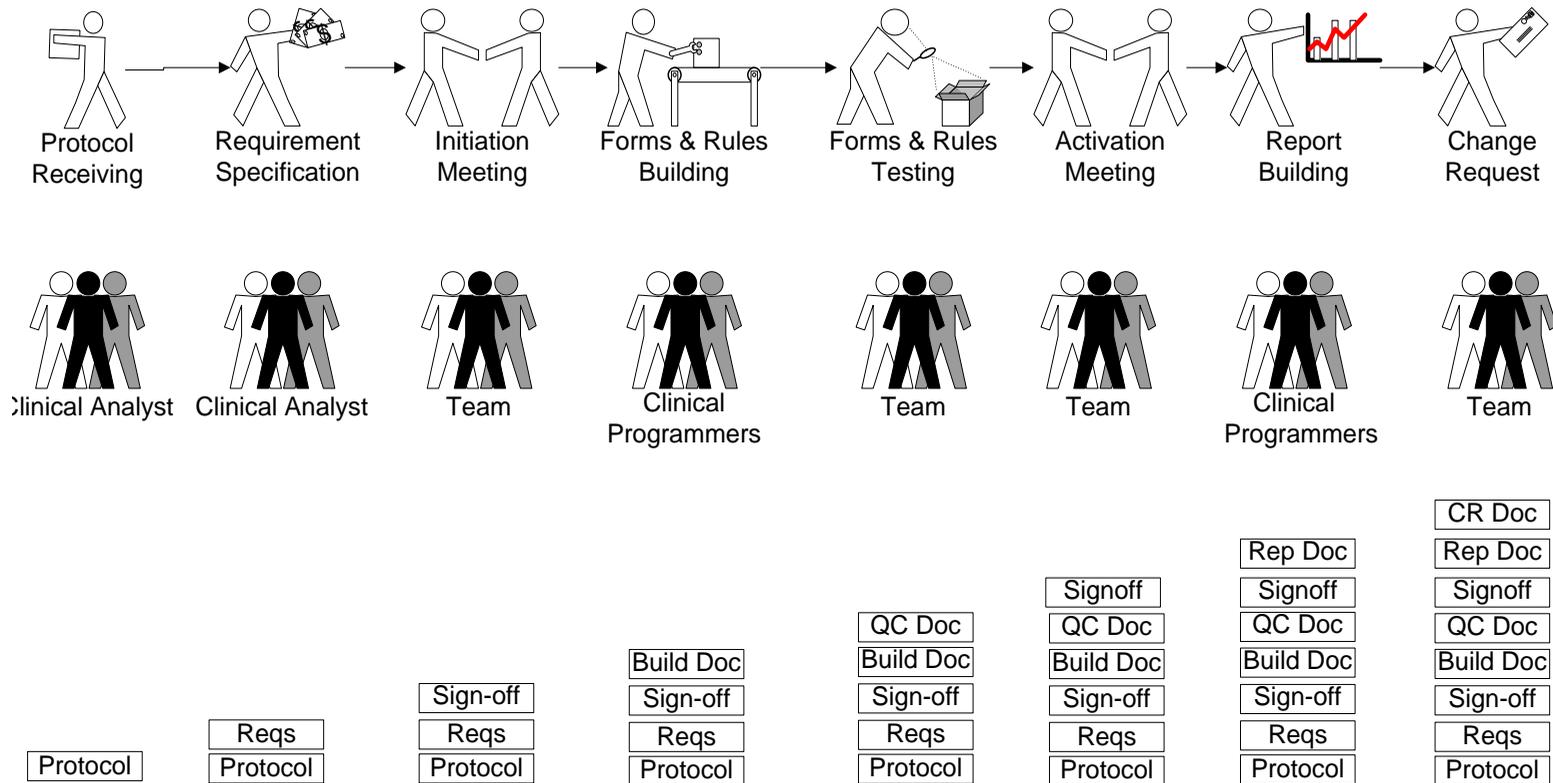

C³D Organization

Designing Protocols in C³D

Control & Configurations Management Group (CCMG)

CCR Standard Case Report Forms

- | Library of Standard Forms & Rules is available as a starting point to build protocol specific forms & rules
- | Detailed Instructions are available for each Standard Form <https://ccrod.cancer.gov/confluence/x/9QiJAw>
- | Each Instructions includes:
 - q General Description
 - q eCRF Screenshot
 - q Field Specific Description (Mandatory, Derived, etc.)
 - q Validation/Derivation Rules

eCRF Instructions Manual

| Contents |
| <ul style="list-style-type: none"> • Purpose • Course Initiation eCRF • Validations • Derivations |

Purpose

Record course initiation Start Date, Arm, Treatment Assignment Code (TAC) and Treating Institution.

Course Initiation eCRF

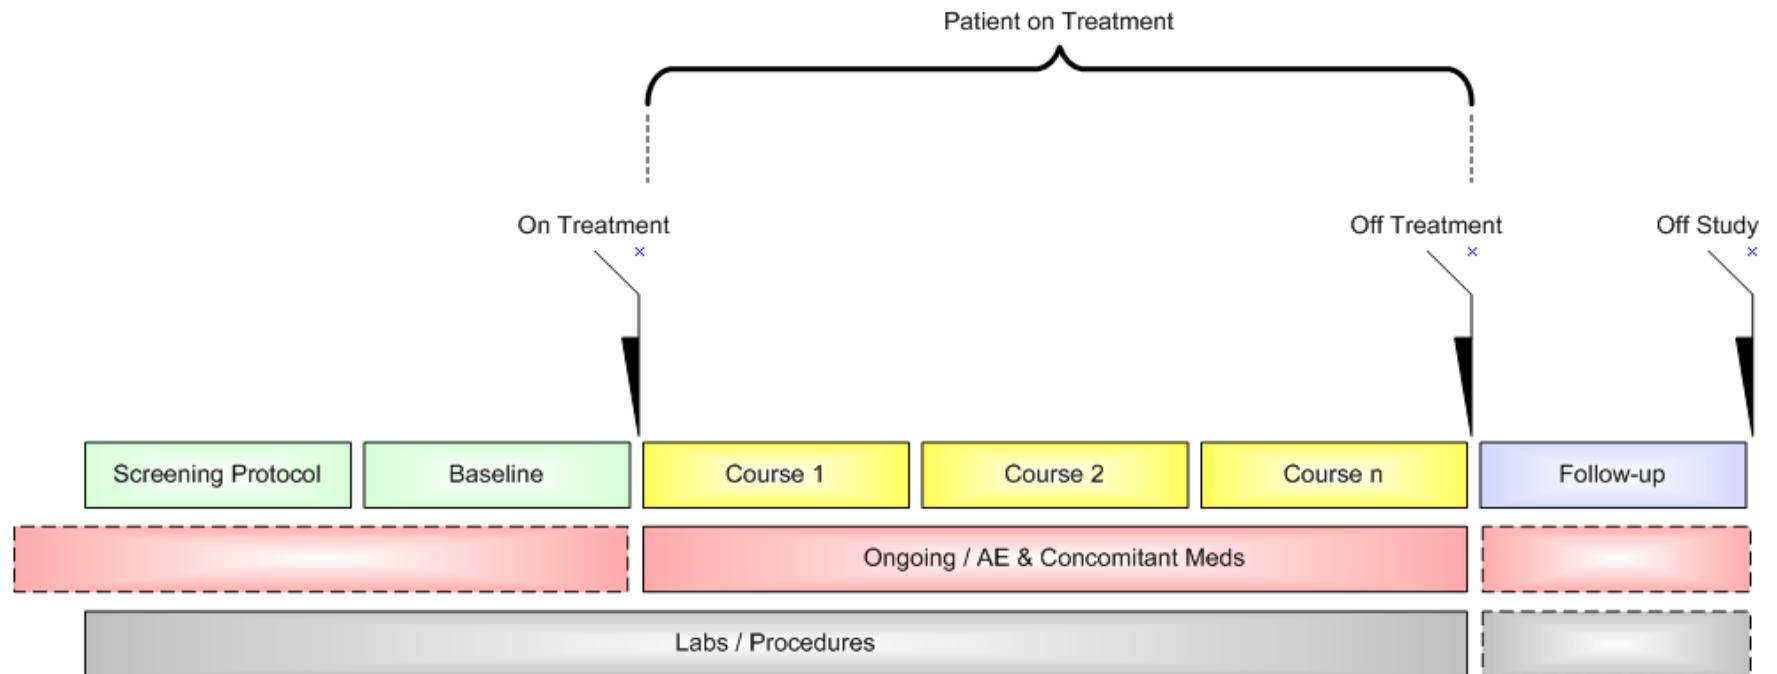

| Field Name | Description / Instructions | Format |
|-------------------------------------|---|-------------|
| Visit Date ^(m) | Enter the date the course started. | DD-MMM-YYYY |
| Course # ^(d) | Sequential number of this course of treatment: first course = 1, second course = 2, etc. | 5 digits |
| Start Date of Course ^(m) | Enter the date on which the course was started. This is the date on which a protocol stipulated medication (or treatment) was first administered. | DD-MMM-YYYY |

CCR Standard Case Report Forms

- | Screening/Baseline Forms
 - q Eligibility, Enrollment, PE, Vitals, Baseline Symptoms, Prior Therapies, ...
- | Courses/Cycles
 - q Course Initiation, Study Medication Administration, PK, Course Assessment, PE, ...
- | Labs
 - q Blood Chemistry, Hematology, ...
- | Ongoing
 - q AE, Concomitant Measures, Extent of Disease, ...
- | Off Tx / Follow-Up / Off Study

C³D Protocol Phases

C3D Study Phases

Role Based Access

| Access => Role | Browse | Enter Data | Manage Discrepancy | Verify eCRF | Approve eCRF |
|----------------------|--------|------------|-----------------------|----------------|-----------------|
| PI | Yes | No | No | No | No |
| Research Nurse | Yes | Yes | Yes | Yes | No |
| Data Manager | Yes | Yes | Yes | No | No |
| Monitor | Yes | No | Yes | No | Yes |
| QA | Yes | No | No | No | No |
| Protocol Builders | Yes | Yes | Yes | No | No |

C³D Support

- | CBIIT provides the first line of support for C³D related issues
- | Contact
 - q Email: ncicbiit@mail.nih.gov
 - q Phone: 240-276-5541 (**Toll free**: 888-478-4423)
 - q Additional Information at:
<https://ccrod.cancer.gov/confluence/x/KwBYB>
- | Protocol specific issues are escalated to the Protocol Builder by CBIIT
- | Changes to Standards are escalated to Controls & Configuration Management Group (CCMG)

Username & Password

- | Username is typically your last name and first name initial.
Ex: **smiths**
- | Password rules:
 - q Start with a letter;
 - q Must containing **at least one number and one special characters** (Ex:! #);
 - q Has to be at least 8 characters long;
 - q The following special character could cause problems if used: \$ % & ' " /.
- | Production Database is called **ocprod**
- | About C³D Password:
 - q **Do not share the password with others!**
 - q Password needs to be changed the first time you login.
 - q Passwords expire every 3 months and need to be changed.
 - q **Account gets locked upon three unsuccessful attempts. Contact C³D Help Desk to unlock account and/or get new password.**

C³D Login Web Pages

- | C³D is Accessible Worldwide
- | C³D Production Login Page:
<https://octrials.nci.nih.gov/opa46/rdclaunch.htm>
- | C³D provides a separate Data Entry environment to test protocol design
 - q Test Login page:
<https://octrials.nci.nih.gov/opa46/rdclauncht.htm>

C³D Login Web Page

For studies with NCI Clinical Center Number prior to 2012 (ex: 11_C_0001, 10_C_0002), click on the Login button.

Click on Login Button

Login

The image shows a screenshot of the Oracle Developer Forms Runtime - Web application. The main window has a title bar that reads "Oracle Developer Forms Runtime - Web" and an "ORACLE" logo in the top right corner. Below the title bar, there is a "Window" menu. In the center of the main window, a "Logon" dialog box is displayed. The dialog box has a title bar with "Logon" and a close button. It contains three input fields: "Username:", "Password:", and "Database:". Below the input fields are two buttons: "Connect" and "Cancel". A yellow callout box with a black border points to the "Logon" dialog box. The text inside the callout box reads: "Enter User, Password, and Database. Then click Connect".

C³D Activity List

The screenshot shows the Oracle C³D Activity List application. The window title is "Deven Shah(Data management role) at OCTRN on 19-JAN-2006 (Study:TRAINING Site:NCI Book:Dci_Book_Jan_2006)". The menu bar includes "File", "Edit", "Insert", "CRF", "Group Activities", "Validate", "Help", and "Window". The toolbar contains icons for user, home, back, forward, search, and help.

The main area is titled "Activity List" and shows a tree view on the left with "TRAINING" selected and "Site: NCI" below it. A vertical list of numbers from 1 to 15 is visible. On the right, there are links: "Review 1 Active Discrepancies", "Show All Data for TRAINING", and "Review 1 Active Discrepancies for Site NCI". Below these are buttons: "Load Filter", "Change Study", "Search", "Cancel", and "Help".

Callout boxes provide the following information:

- "Select All Data, Active Discrepancies, etc." points to the top right area.
- "Select Data for specific Site or Patient" points to the "Site: NCI" area.
- "Choose Different Studies" points to the "Change Study" button.
- "Specify Search Criteria" points to the "Search" button.
- "Study Summary" points to the "Study Information" section.

The bottom section is divided into "Study Information" and "Study CRF Information".

Study Information

| | | |
|--|-----------------------------------|--------------------------------|
| Name | Training study for template 3.12B | |
| # Sites | <input type="text" value="1"/> | |
| Created | Enrolled | With Data |

| | | Not Locked | <input type="text" value="1"/> |

Record: 1/3

Selecting Activity

- | Quick Links to View
 - q All Study Data
 - q Discrepant Data
 - q Site Specific or Patient Specific Data
- | Change Study button to choose a Different Study
 - q Default Study is preserved from prior login
 - q Access to study sites and C³D features are controlled by user role
- | Search button used to locate eCRFs based on one or more criterion

- | **Quick Tip:**
 - q This screen provides a quick review of open discrepancies in your study
 - q **It is strongly recommended to work with one patient at a time when performing data entry to avoid entering data in the wrong patient position.**

Selecting Study

The screenshot shows the Oracle Clinical Remote Data Capture interface. A 'Change Study' dialog box is open, displaying a list of studies. The dialog has a 'Find %' search field at the top. Below it is a table with two columns: 'Study Name' and 'Title'. The table lists 20 studies. At the bottom of the dialog are three buttons: 'Find', 'OK', and 'Cancel'. A yellow callout box with a black border points to the 'OK' button, containing the text 'Select Study & Click OK'. The background application window shows a menu bar (File, Edit, Insert, CRF, Group Activities, Validate, Help, Window) and a toolbar with various icons. The status bar at the bottom of the application window displays 'Choices in list: 80' and 'Record: 1/1'.

| Study Name | Title |
|------------|--|
| 03C0038 | 03-C-0038 (5750) - Dr. Janik |

| 03_C_0304 | 03-C-0304 - Dr. Wyndham H. Wilson |
| 04_C_0011 | 04-C-0011 -Dr. Tito Foio |

Study Access

- | Study/Site access and C³D features determined by user role
- | User Roles:
 - q Data Managers (Performs Data Entry)
 - q Research Nurse (Performs Data Entry and Verifies eCRFs)
 - q Monitor (Read-only access and Approves eCRFs)
 - q Principal Investigator (Read-only access)
 - q Reviewer (Read-only access)

Search Criteria

The screenshot displays the Oracle Clinical Remote Data Capture interface. The main window title is "Deven Shah(Data management role) at OCTRN on 19-JAN-2006 (Study:TRAINING Site:NCI Book:Dci_Book_Jan_2006)". The menu bar includes File, Edit, Insert, CRF, Group Activities, Validate, Help, and Window. The toolbar contains various icons for navigation and actions. The main area shows a grid of data with columns for "Screening 1 Elig", "Screening 2 Enroll", and "Screening 3 MR". A "Search" dialog box is open, allowing users to specify search criteria. The dialog box includes the following options:

- Book: Dci_Book_Jan_2006 (Default Book)
- Site: Nci (All Sites)
- Patients: Patient 1 (All Patients, Specify...)
- Visits/Pages: All visits and pages (All Visits, Specify...)
- CRF Status: All CRFs (All Statuses, Specify...)
- Date Window: All entry and visit dates (All Dates, Specify...)
- Data: All data (All Data, Specify...)

Buttons at the bottom of the dialog box include OK, Load Search, Cancel, and Change Study. A yellow callout box labeled "Search Criteria Dialog Box" points to the dialog box.

Search Criteria

I Search options:

- q Book - collection of CRFs for a particular version of the protocol (initial version or amendments)
- q Site
- q Patients
 - o Range of Patients
- q Visits/Pages
 - o Phases, Visits, etc.
- q CRF Status
 - o Complete, Discrepant, Verified, Approved, etc.
- q CRF Entry Date Window
 - o Entry or Modification Date Ranges
- q Data
 - o Data entered in an eCRF

I **Quick Tip:**

- q Protocol Amendments may require different DCI Book. Latest DCI book is the default one. Use Search option to select a previous book.
- q Search Criteria Could be saved for future use.

- | Blank Square icon indicates eCRF has been marked blank
- | Red icon indicates one or more open discrepancies

Electronic CRF (eCRF)

The screenshot displays the Oracle Clinical Remote Data Capture (eCRF) interface. The title bar shows the user 'OPA (Marcelo Fontinha - OPS\$FONTINHMT at OCPROD on 15-JUN-2004)'. The menu bar includes 'File', 'Edit', 'Insert', 'CRF', 'Group Activities', 'Validate', 'Help', and 'Window'. The toolbar contains various icons for file operations and help. The main window is titled 'Patient X2 Page 2 (Enroll for Screening) Page 1 of 1'. The left sidebar shows a list of tabs: X1 (XYZ), X2 (XYZ), X3 (XYZ), X4 (XYZ), X8 (XYZ), X9 (XYZ), and X10 (XYZ). The main form area contains various data entry fields. Annotations highlight specific features: 'Tabs for eCRF Sections' points to the sidebar tabs; 'Non-enterable field' points to a field with a red 'X' icon; 'Ellipsis indicates field has a Pick List' points to a field with a dropdown arrow; 'Yellow - Univariate Discrepancy' points to a yellow-highlighted field; and 'eCRF Scroll Bar' points to the vertical scrollbar on the right. The form data includes: Visit Date: 10-Jun-2004; Gender: M; Date of Birth: 01-JAN-1973; Age at Entry: [blank]; Patient Initials: ABC; Date of Registration: 02-JAN-2004; Date from which to Start Including Labs: 05-MAY-2003; Race: Select all that apply (White, Black/African American, Native Hawaiian/Pacific Islander, Asian, American Indian/Alaska Native, Race Not Reported, Race Unknown); Ethnicity: NONHISPANIC; Registering Institution: [blank]; Local Patient ID: [blank]; Patient Subgroup: [blank]; Registering Group: SWOG; Country Code: AR; Postal Code: [blank]; Method of Payment: 98=C; Primary Disease Site: MUSCULOSKELETAL; Disease Code: 10000587; Disease Stage at Entry: STAGE II A; Histology/Cytopathology: xyz; Date of Confirmation of Histology: [blank]; Grade of Histology: 2; Date of Diagnosis: [blank]; Planned TAC: ARM A; Date Informed Consent Signed: 01-JAN-2003; Date of Informed Consent Version: 12-DEC-2002. The bottom status bar shows 'Record: 1/1' and '<OSC>'.

eCRF specific Audit Trail

Audit Trail

- | Audit Trail Tab shows history of all changes made to a specific eCRFs
- | Shows current and prior values for each changed eCRF field along with the date of change and the user who made the change
- | **Quick Tips:**
 - q Auditing Begins after Form is marked complete
 - q Do not share user ids and passwords!

Resizing eCRF Window

The screenshot shows the Oracle Clinical Remote Data Capture interface. A window titled "Sizing window for Data Entry" is open over the main application. The window has a title bar with a close button (X) on the right. Three yellow callout boxes provide instructions:

- Click Title Bar to enter Resize Mode**: A line points to the title bar of the "Sizing window for Data Entry".
- Then Click and Drag the Title Bar to move the window or the sides/corners to resize**: A line points to the title bar of the "Sizing window for Data Entry".
- Click Done when resizing is complete**: A line points to a "Done" button located below the window.

Additional text in the image includes:

- A blue box: "then click the [Done] button"
- A blue box: "A future alternative is to use the right mouse on the title bar"

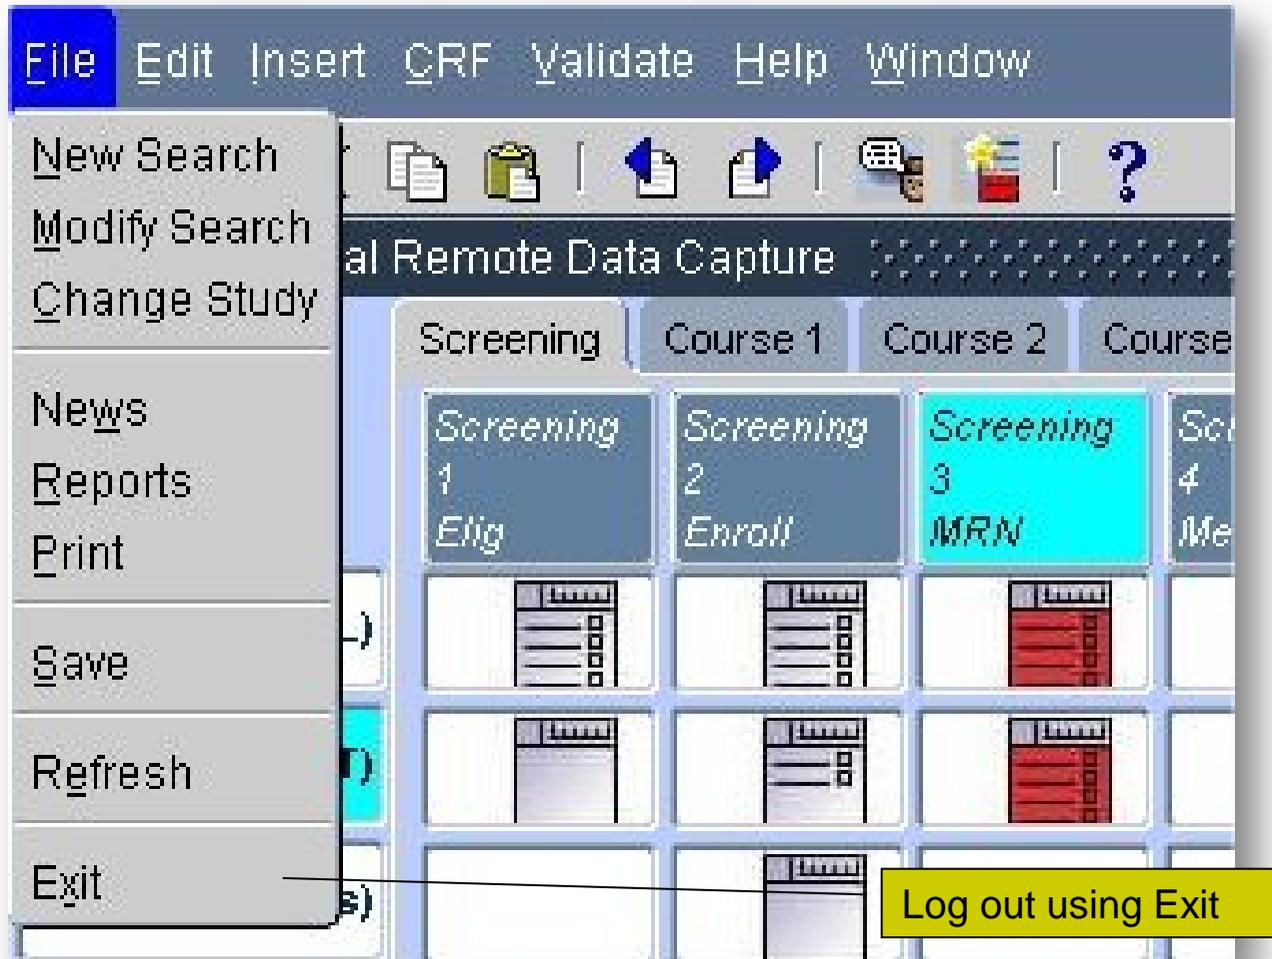

The background application shows a menu bar (File, Edit, Insert, CRF, Group Activities, Validate, Help, Window), a toolbar, and a tabbed interface with tabs for Urinalysis, Bone Marrow, Serology, etc. A sidebar on the left contains buttons for X1 (XYZ) through X10 (XYZ). At the bottom, there are fields for Date (16-Apr-2004), Doc # (R11035201), Status (Entry Started), Last modified on (17-May-2004 09:43:10), Last transaction on (17-May-2004 09:43:10), and By (Liming Wan).

Resizing eCRF Window

- | Click on the eCRF title bar to enter resize mode
- | Click and drag title bar to move window
- | Click and drag window edge to expand/reduce window size
- | Click OK when Done

- | **Quick Tip:**
 - q Right mouse click on the eCRF title bar to show a pop-up menu with options to move/resize the eCRF window.

Log Out

Log Out

- | Exit C³D before closing the Browser
- | Inactivity for more than 30 minutes logs you out automatically. **Any unsaved work is lost!**

Inserting New Patient

The screenshot displays the Oracle Clinical Remote Data Manager interface. The main window title is "Deven Shah(Data management role) at OCTRN on 01-MAR-2005 (Study:TRAINING Book:Dci Book)". The menu bar includes "File", "Edit", "Insert", "CRF", "Group Activities", "Validate", "Help", and "Window". The toolbar contains various icons, including a person icon for inserting new patients. A dialog box titled "Insert" is open, showing a list of patient positions from 27 to 34, with "29" selected. The dialog has "OK" and "Cancel" buttons. A yellow callout box points to the person icon in the toolbar with the text "Icon to Insert New Patients". Another yellow callout box points to the "29" selection in the dialog with the text "Choose Patient Position". The main window shows a grid of patient data with columns for "Hematology", "Urinalysis", "Bone Mar...", "Serology", and "Other Se...". The grid rows are labeled "11 (SAH)", "12 (SAH)", "13 (SAH)", "14 (SAH)", "15 (SAH)", "16 (SAH)", "17 (SAH)", and "18 (SAH)". The status bar at the bottom indicates "All patients, all pages" and "Record: 1/1".

Record: 1/1 <OSC>

Inserting New Patient

- | Click Patient Icon or Select Insert -> Patient from the menu bar
- | Choose a Patient Position Number from the pick list
- | New Patient Row is Created

- | **Quick Tips:**
 - q The total number of Patients available for entry are governed by protocol ceiling accrual. Request additional patient numbers if protocol is amended.
 - q It is a good practice to use the patient numbers in sync with those assigned by Central Registration Office (CRO)

Starting New Planned eCRF

The screenshot displays the Oracle Clinical Remote Data Capture application window. The title bar indicates the user is Deven Shah (Data management role) at OCTRN on 01-MAR-2005, working on a study named TRAINING. The interface includes a menu bar (File, Edit, Insert, CRF, Group Activities, Validate, Help, Window) and a toolbar with various icons. The main area is a grid of eCRF forms, with columns labeled 'Screening', 'Course 1', 'Course 2', 'Blood Chem...', 'Hematology', 'Urinalysis', 'Bone Mar...', 'Serology', and 'Other Se...'. The 'Course 1' column contains forms for 'Initiation', 'Physical', 'Pharmacok.', 'Study Med', and 'Assess'. A yellow callout box with a black border points to an empty cell in the grid, containing the text: 'Click on empty Cell to insert eCRF and begin data entry'. The bottom of the window shows a navigation bar with tabs for 'Summary', 'Discrepancies', 'Verification', 'Approval', and 'Audit Trail', and a status bar indicating 'Record: 2/5'.

Starting New Planned eCRF

- | Click on an empty cell to insert eCRF and begin data entry
- | Resize if necessary

Entering Visit Date

The screenshot shows the Oracle Clinical Remote Data Capture interface. At the top, the user is identified as 'Deven Shah(Data management role) at OCTRN on 01-MAR-2005 (Study:TRAINING Book:Dci Book)'. The main window displays a grid of data entry tabs for various screening activities. The 'Screening 6 Prior Tx' tab is currently selected and highlighted in cyan. Below the grid, a form for 'Patient 4 Page 6 (Prior Tx for Screening)' is visible. The 'Visit Date' field is empty and has a dropdown arrow. To its right is a 'Blank' checkbox and a 'Comment' text box. Below these are 'PTX' and 'COM' buttons. A large instruction box reads: 'Enter date, or T for Today, Y for Yesterday, L for Last entered (required)'. A yellow callout box with a black border points to the 'Visit Date' field, containing the text 'Enter Visit Date and press Tab key'. At the bottom, there is an 'Activity List' section with 'All patients, all pages' selected, and a footer with the text 'Date on which this data was collected. Enter T for Today, Y for Yesterday, L for Last visit date entered. Record: 1/1 ... List of Valu... <OSC>'.

Entering New eCRF

- | Click on the empty Cell to insert appropriate eCRF
- | Enter the Visit Date
 - q **Visit Date is the Lab Sample Collection Date for Lab eCRFs!**
 - q Visit Date is mandatory except for Ongoing Visit eCRFs.
 - q Partial dates are not acceptable.
 - q Consult eCRFs Instructions Manual for eCRF specific guidance:
 - o Usually Evaluation Date, Administration Date, Initiation Date, Lab Date, Course Start Date, etc.

Tabular eCRF

- | Fields shown in a grid layout
- | Scroll up and down the rows of the table using arrow keys (No Scroll Bars!!)

- | **Quick Tips:**
 - q Use the menu option CRF -> Insert Row to insert a row between two rows (below the currently selected row).
 - q **A row cannot be left blank and must be deleted before proceeding to another row.**
 - o Select the menu option CRF -> Delete Row.

Using Pick List

The screenshot displays the Oracle Clinical Remote Data Capture interface. At the top, the title bar reads "Deven Shah(Data management role) at OCTRN on 01-MAR-2005 (Study:TRAINING Book:Dci Book)". The menu bar includes "File", "Edit", "Insert", "CRF", "Group Activities", "Validate", "Help", and "Window". The toolbar contains various icons for file operations and help. The main window shows a patient record for "Patient 1 Page 35 (Adv Event for Ongoing) Page 1 of 1, Repeat 1 of 4." The "Visit Date" is "07-Jul-2004". A yellow callout box points to the "Type" field, which is currently set to "AE1". The callout text reads: "Click on Field Ellipsis or Hit F9 to show Pick List". A pick list dialog box is open, showing a search field with "bi%" and a list of options: "AE_SELECT", "Bicarbonate, serum-low", and "Bilirubin (hyperbilirubinemia)". The "Bicarbonate, serum-low" option is highlighted. The dialog box has "Find", "OK", and "Cancel" buttons. The background interface includes a table with columns for "Date", "Resolved", "CTC Term", "CTC Category", "Adverse Event Description", "Filed", and "Grac". The "CTC Term" column has a yellow highlight. The status bar at the bottom shows "Choices in list: 2 (Choices in full list: 1000)" and "Record: 1/1".

Using Pick List

- | Fields with Ellipsis contain a Pick List
- | Pick List can be accessed by clicking the Ellipsis or pressing the F9 Key
- | Searching the Pick List:
 - q Start typing in some letter and the list is filtered as you type or;
 - q Click on the Find box, enter a some letters surrounded by the wildcard % character (ex: %ypo%) and click on the Find button. Select one of the values.
 - q **If the Pick List has more than 1,000 items, items beyond 1,000 cannot be searched after the Pick List is shown.** Close the Pick List and use the wildcard find shown above then press the F9 key or click on the ellipsis. This way the entire list will be searched and matched items shown. The following Pick Lists have more than 1,000 items:
 - o CTCAE Term (version 3.0) pick list on the Adverse Events and Baseline Symptoms;
 - o Agents in the Concomitant Measures and Medications;
 - o Enrollment eCRF Disease Term (only when using comprehensive CTEP list of Diseases);
 - o Enrollment eCRF Registering Institute;
 - o Course Initiation eCRF Treating Institute.
- | **Quick Tips:**
 - q If a value is not in the pick list enter it, consult your DM Supervisor. Entering a value that is not on the pick list will create a discrepancy.

Marking eCRF Blank

The screenshot displays the Oracle Clinical Remote Data Capture interface. At the top, the user is identified as Deven Shah (Data management role) at OCTRN on 01-MAR-2005, working on Study: TRAINING, Book: Dci Book. The main window shows a patient record for Patient 5, Page 2 (Enroll for Screening), with a visit date of 03-Nov-2004. A yellow callout box labeled "Marking entire eCRF Blank" points to the "Blank" checkbox in the top right of the form area. Below this, a large blue area contains the text "This section has been marked as blank", with another yellow callout box labeled "Marking Section Blanks" pointing to it. The interface includes a menu bar (File, Edit, Insert, CRF, Group Activities, Validate, Help, Window), a toolbar, and a tabbed interface for different data sections like Screening, Course 1, Course 2, Blood Chem..., Hematology, Urinalysis, Bone Mar..., Serology, Other Se..., and Blood Gas. At the bottom, there is a summary section for Patient 5, Visit Screening, created on 03-Nov-2004 12:44:30, and a status bar indicating "Checked if there is no data for this section of the CRF" and "Record: 1/1".

Marking eCRF Blank

- | Entire eCRF can be marked Blank
- | Individual Sections of an eCRF can be marked Blank
- | Checking Blank Flag will erase any entered information from the eCRF/Section
- | Blank Flag can be unchecked to enter information

- | **Quick Tip:**
 - q It is a good practice to mark Sections that will not have data entered as Blank.
 - q Once all sections of a CRF are 'addressed' (by entering data or marking it as blank) the overall status of the eCRF becomes Entry Complete.

Entering/Viewing Laboratory Data

The screenshot displays a software interface for data management. At the top, a status bar shows the user 'Abu Muyeen(Data management role)' at 'OCPROD' on '23-FEB-2010' for 'Study:10_C_0056 Site:NCIMB Book:Book_0_11dec2009'. A menu bar includes 'File', 'Edit', 'Insert', 'CRF', 'Group Activities', 'Validate', 'Help', and 'Window'. A dropdown menu is open under 'Insert', listing 'Patient', 'CRF', 'Visit', 'Discrepancy (manual) F11', 'Section Discrepancy', and 'Investigator Comment F12'. The main area is a grid with columns for 'Cycle 2' through 'Cycle 6', 'Blood Chemistry', 'Hematology', 'Urinalysis', 'Serology', 'Other Serums', 'Other Uri...', and 'Coagula...'. The first row of data shows '1010001 (SES)' with icons in the 'Blood Chemistry' columns. A yellow callout box labeled 'Add Unplanned' points to a cell in the 'Blood Chemistry' column. Another yellow callout box labeled 'Show/Hide Unplanned' points to a 'Hide unplanned pages' button in the 'Hematology' column. At the bottom, an 'Activity List' section shows 'Site NCIMB, Patient 1010001' with tabs for 'Summary', 'Discrepancies', 'Verification', 'Approval', 'Audit Trail', and 'Links'. The 'Summary' tab is active, showing a 'Summary For' dropdown set to 'Visit' and a '# Patients' field with '1'. It also contains two summary tables: 'Summary of CRFs Retrieved' and 'Summary of CRFs in Current Tab'.

| Summary of CRFs Retrieved | Summary of CRFs in Current Tab |
|--|--|
| Planned <input type="text" value="25"/> | Planned <input type="text" value="1"/> |
| Unplanned <input type="text" value="12"/> | Unplanned <input type="text" value="6"/> |
| Total <input type="text" value="37"/> | Total <input type="text" value="7"/> |
| Not verified <input type="text" value="37"/> | Not verified <input type="text" value="7"/> |
| Awaiting re-verification <input type="text" value=""/> | Awaiting re-verification <input type="text" value=""/> |
| Verified <input type="text" value=""/> | Verified <input type="text" value=""/> |

Entering/Viewing Laboratory Data

- | Laboratory Data eCRFs are designed with dedicated Tabs (Hematology, Blood Chemistry, Urinalysis, etc.)
- | Additional Lab eCRFs can be viewed by clicking Show Unplanned Events
- | Additional Lab eCRFs can be added by:
 - q Select the appropriate Lab Visit;
 - q Open the patient's last Lab eCRF on the selected visit;
 - q Then select the menu option Insert -> Visit
 - o **Do not select Insert -> CRF**

Saving eCRF

The screenshot displays the Oracle Clinical Remote Data Capture interface. The title bar reads "Deven Shah(Data management role) at OCTRN on 01-MAR-2005 (Study:TRAINING Book:Dci Book)". The menu bar includes "File", "Edit", "Insert", "CRF", "Group Activities", "Validate", "Help", and "Window". The Oracle logo is in the top right corner. The main window shows a "Patient 5 Page 2 (Enroll for Screening) Page 1 of 1." form. A yellow box labeled "Save Icon" points to a save icon in the top toolbar. The form contains the following data:

| | | | | | |
|-----------------------------|-------------|------------------|--------------------------|---|-------------|
| Visit Date | 03-Nov-2004 | Blank | <input type="checkbox"/> | Comment | |
| Enroll | Init_Vs | COM | | | |
| Gender | M | Date of Birth | 13-APR-1995 | Age at Entry | 9.2 |
| Date of Registration | 22-JUN-2004 | Patient Initials | SAH | Date from which to Start Including labs | 18-JUN-2004 |
| Race: Select all that apply | | | | | |

The bottom status bar shows "Record: 1/1" and "List of Valu...".

Saving eCRF

- | eCRF can be saved using
 - q Toolbar Save Icon (yellow floppy disk)
 - q F10 Key
 - q File -> Save menu option

- | **Quick Tip:**
 - q Save Often!! Especially while entering Ongoing Information such as AEs and ConMeds.
 - q C³D session terminates without warning if there is no activity for 30 minutes.

Data Entry Change Reason

The screenshot displays the Oracle Clinical Remote Data Capture interface. The main window shows patient information for "Patient 5 Page 2 (Enroll for Screening) Page 1". The "ENROLLMENT" section includes fields for Gender (M), Date of Birth (01011967), Date of Registration (22-JUN-2004), and Date from which to Start Including labs (18-JUN-2004). A yellow box labeled "Data Changed" points to the "Date from which to Start Including labs" field.

An "Audit Information for Data Change" dialog box is open, showing the following information:

| Change Reason | Description |
|----------------|------------------|
| DATA ENTRY ERR | Data Entry Error |

The dialog box also includes a "Comment" text area and "Save" and "Cancel" buttons.

The background interface includes a menu bar (File, Edit, Insert, CRF, Group Activities, Validate, Help, Window), a toolbar, and a status bar at the bottom showing "Record: 1/1" and "<OSC>".

Data Entry Change Reason

- | Change Reason needs to be specified while changing data on completed eCRF
- | Change Reason becomes part of the Audit Trail along with date of change and user name
- | Comments can be provided in the change reason to further explain

- | **Quick Tip:**
 - q Do not use personnel/patient names or identifiers in the comments.

What is a Discrepancy?

- | A discrepancy is the failure of entered data to pass a validation check as applied by C³D.
- | C³D validation checks are defined based on the definition of the fields, logical rules, protocol specifications, and sponsor requirements.
- | Discrepancies are tools to assist teams in identifying potential data inconsistencies and facilitate real-time QA of data.

- | **Quick Tips:**
 - q Discrepancies do not cover 100% of possible data inconsistencies.
 - q Clinical judgment may supersede discrepancy logic.

C³D Discrepancy Types

I Univariate

- q Generated during data entry/load when data is in some way different from the Question's definition (e.g. mandatory, length, type, range, pick list, etc.)

I Multivariate

- q Based on a condition on one or more questions as defined in a validation rule
- q Generated on-line or when validation rules are run (eCRF must be saved as Complete.)

I Manual

- q Generated by data entry operator seeking clarification on data values

Some Typical Discrepancies

| Types | Example: | Resolutions |
|----------------------------|---|--|
| Data Type | Text entered in numeric or date field. | Review Source Document and enter appropriate data. |
| Length Problems | Too many characters entered. | Use NIH accepted Abbreviations. |
| Value not on the Pick List | Generic Agent not present in Concomitant Agent Pick List and user typed in an Agent not found on the Pick List. | Search for alternates. Consult Team Lead. Request value to be added to Pick List. |
| Mandatory Value | Required Field left empty. | Refer to Source Document. Design modification. |
| Partial/Invalid Dates | 00-10-2010 entered, but field requires a full data such as 01-01-2010 | Refer to Source Documents. Check Day Month Year order. Check that date is not in the future. |

Outstanding Discrepancies in a Study

The screenshot shows a web application interface. At the top, a blue header bar contains the text: "Deven Shah(Data management role) at OCPROD on 18-JUN-2004 (Study:THER_STD Site:SITE_01 Book:Whole Book)". Below this is a menu bar with items: File, Edit, Insert, CRF, Group Activities, Validate, Help, Window. A toolbar with various icons is positioned below the menu. The main content area features a window titled "My Activity List" with a tree view on the left showing "THER_STD" and "Site: SITE_01". To the right of the tree view are three blue hyperlinks: "Review 49 Active Discrepancies", "Show All Data for THER_STD", and "Review 49 Active Discrepancies for Site SITE_01". On the right side of the window, there are four buttons: "Change Study", "Search", "Cancel", and "Help". At the bottom of the window, there are two tabs: "Summary" and "Links".

eCRF Containing Unreviewed Discrepancies are displayed as Red

eCRF Containing Discrepancies

- | eCRF containing discrepancies are shown in Red
- | It is a good practice to address discrepant eCRF on an ongoing basis

Discrepancies Tab

The screenshot displays a clinical trial data management system interface. At the top, there are tabs for various data entry sections: Screening, Course 1, Course 2, Course 3, Course 4, Course 5, Blood Chemistry, Hematology, Urinalysis, Bone Marrow, Serology, Other Serum, and Blood Gas. The 'Screening' section is active, showing a grid of data entry points for different screening visits (1-10) and a list of patients (1(L), 2(PT), 5(No inits), 9(No inits), 10(ABC)).

The 'Discrepancies Tab' is selected, showing a list of discrepancies. The first discrepancy is highlighted in red and contains the text: "Value of hdfhdfh for The Common Toxicity Criteria Term is not in the lookup thesaurus".

A detailed view of this discrepancy is shown in a pop-up window. It includes fields for 'Onset Date' (00-SEP-2002), 'CTC Term' (HEPATIC:: BILIRUBIN), and 'Symptom Description' (ABC). Another entry is visible with 'Onset Date' 20-JUL-2002 and 'CTC Term' HDFHDFH.

Two yellow callout boxes provide additional information:

- The first callout box, pointing to the 'Discrepancies Tab' in the main interface, states: "Discrepancies in the selected eCRF are summarized in Discrepancies Tab".
- The second callout box, pointing to the list of discrepancies, states: "First tab enumerates all discrepancies. Additional tabs provide individual discrepancies details."

Discrepancies Tab

- | While viewing an eCRF, clicking on the Discrepancies Tab shows the discrepancies on that eCRF
- | The first tab gives the summary of all discrepancies in that eCRF (open and closed)
- | Additional tabs provide individual discrepancies details.

Summary Discrepancies Verification Approval Audit Trail

List 1 - Active

Seq Text Status Comments

How are Univariate Disc. Created?

- | Univariate Discrepancies pop-up is presented during data entry when the entered value does not match the field definition.
 - q Mandatory field left empty
 - q Text entered in a Date or Numeric Field
 - q Too many characters entered
 - q Value is not on the Pick List
 - q Partial Date entered when a complete date is required
- | Data Entry operator can:
 - q Cancel the pop-up and fix the value
 - q Or accept the discrepancy
- | **Quick Tip:**
 - q Univariate Discrepancies are reassessed during Batch Validation for Design Changes.

How is a Univariate Disc. Displayed?

The screenshot displays the Oracle Clinical Remote Data Capture interface. The main window shows a grid of data entry fields for various screening visits. A pop-up window titled "Patient 1 Page 5 (Symptom for Screening) Page 1 of 1, Repeat 1 of 2." is open, showing a table of symptoms. The value "HDFHDFH" in the CTC-Term column is highlighted in yellow, indicating a univariate discrepancy. A yellow callout box points to this value with the text "Data Values with Univariate Discrepancies is highlighted".

| Onset Date | CTC-Term | Symptom Description | Grade | Rel |
|-------------|---------------------|---------------------|-------|-----|
| 00-SEP-2002 | HEPATIC:: BILIRUBIN | ABC | 2=M | |
| 20-JUL-2002 | HDFHDFH | XYZ | 1=M | |

Below the main window, a "Discrepancies" tab is active, showing a list of discrepancies. The first entry is highlighted in red and yellow, with a yellow callout box pointing to it, stating "Data Values with Univariate Discrepancies is highlighted".

| Seq | Text | Status | Comments | Action |
|-----|---|-----------------------------|----------|--------|
| 1 | Value of hdfhdfh for The Common Toxicity Criteria Term is not in the lookup thesaurus | Discrepancy not reviewed by | | |

How is a Univariate Disc. Displayed?

- | Discrepant data is highlighted in Yellow
- | Discrepancy text provides the details

- | **Quick Tip:**
 - q Double Click on the Discrepancy Message Text to view the entire message in a window.

How are Multivariate Disc. Created?

- | Multivariate Discrepancies are created based on validation rules programmed in a study
 - q Example 1: Create Discrepancy if the entered BSA is not within 10% of the calculated BSA
 - q Example 2: Create Discrepancy if Date of Histological Confirmation is before Date of Diagnosis

- | **Quick Tip:**
 - q Rules available as a standard on each eCRF are summarized in the eCRFs Instructions Manual.
 - q Though several standard rules are implemented for each eCRF as specified on the eCRFs Instructions Manual, clinical teams can request them to be turned off or modified to comply with the Protocol.

Evaluation of Multivariate Rules

- | Validation Rules are evaluated:
 - q on-line validation rules are evaluated upon completion of a CRF **Saved as Complete**
 - q during an overnight batch validation session for CRFs **Saved as Complete**

- | Multivariate Discrepancies are displayed in the same manner as Univariate Discrepancies. The Discrepancy Details panel indicates the type of Discrepancy.

- | **Quick Tip:**
 - q Complex rules run overnight.

How is a Multivariate Disc. displayed?

The screenshot displays the Oracle Clinical Remote Data Capture interface. At the top, the user is identified as Deven Shah (Data management role) at OCTR on 07-MAR-2005, working on the TRAINING study. The interface includes a menu bar (File, Edit, Insert, CRF, Group Activities, Validate, Help, Window) and a toolbar. Below the menu is a tabbed interface for various data entry sections: Screening, Course 1, Course 2, Blood Chem..., Hematology, Urinalysis, Bone Mar..., Serology, Other Se..., Blood Gas, Pulmonar..., Red Cell..., and Other Ur... The 'Screening' tab is active, showing a grid of data entry points for visits 1 through 10. A pop-up window titled 'Patient 10 Page 2 (Enroll for Screening) Page 1 of 1' is open, displaying patient details. A yellow callout box labeled 'Discrepancy tab' points to the 'Discrepancies' tab in the 'Activity List' section. Another yellow callout box labeled 'Discrepancy Description' points to the text: 'Date of Histology Confirmation 01-JUN-1999 is before Date of Diagnosis 01-DEC-2000 . Please verify'. A third yellow callout box labeled 'Related Data' points to a table of related data entries. The status bar at the bottom indicates 'Record: 2/6' and '<OSC>'.

- | Discrepancy is based on one or more fields and is NOT highlighted in Yellow
- | Discrepancy tab provides the details
 - q Discrepancy Text
 - q Involved Clinical Data in the evaluation of the Discrepancy
- | **Quick Tip:**
 - q The Action pull-down “Go to Data Field” does not work as the discrepancy could be based on more than one field.

How to Address a Discrepancy

The screenshot shows the Oracle Clinical Remote Data Capture interface. At the top, it displays the user 'Deven Shah(Data management role) at OCTRN on 20-JAN-2004 (Study:THER_STD Site:SITE_01 Book:Whole Book)'. The main window has a menu bar (File, Edit, Insert, Go, Validate, Data Entry, Help, Window) and a toolbar. Below this is a tabbed interface with tabs for 'Screening', 'Course 1', 'Course 2', 'Course 3', 'Course 4', 'Course 5', 'Blood Chemistry', 'Hematology', 'Urinalysis', 'Bone Marrow', 'Serology', 'Other Serum', 'Blood Gas', and 'Red Cell Ind.'. The 'Screening 5 Symptom' tab is active. A patient list on the left shows '1 (L)' selected. The main data entry area shows a form for 'Patient 1 Page 5 (Symptom for Screening) Page 1 of 1, Repeat 2 of 2. <Univ>'. The form includes fields for 'Visit Date' (25-Mar-2003), 'Bsym*' (COM), and a table of data. The table has columns for 'Date', 'Text', and 'Grade'. The second row shows '20-JUL-2002', 'hdfhdfh', and '1=MI'. A yellow callout box points to the 'hdfhdfh' value with the text 'Fix Data as indicated in the Discrepancy Text'. Another yellow callout box points to a pull-down menu with the text 'Choose Go to Data Field from Pull Down Menu'. The pull-down menu is open, showing options: 'Send to site', 'Send for classification', 'Close - resolved', 'Closed - no resolution', and 'Go to data field' (highlighted in blue). At the bottom, there is a 'Discrepancies' tab with a list of 1 active discrepancy. The list has columns for 'Seq', 'Text', 'Status', and 'Comments'. The first row shows '1', 'Value of hdfhdfh for The Common Toxicity Criteria Term is not in the lookup thesaurus', 'Discrepancy not reviewed by', and an empty comment field. Below the list are 'New' and 'History' buttons.

How to Address a Discrepancy

- | Review Discrepancy Details
- | Whenever possible, use the Action pull down 'Go to Data Field' to jump to the Discrepant Field
- | Resolve the discrepancy by:
 - q Consulting Source Documentation and;
 - q Modifying incorrect data and specifying change reason;
 - q Requesting eCRF Design and/or Validation Rule Change.

- | **Quick Tip:**
 - q System obsoletes univariate discrepancy automatically when data is corrected and complies with design/rules.
 - q Multivariate Discrepancies are only re-evaluated during overnight Batch Validation.

Time Relation HH24 MI

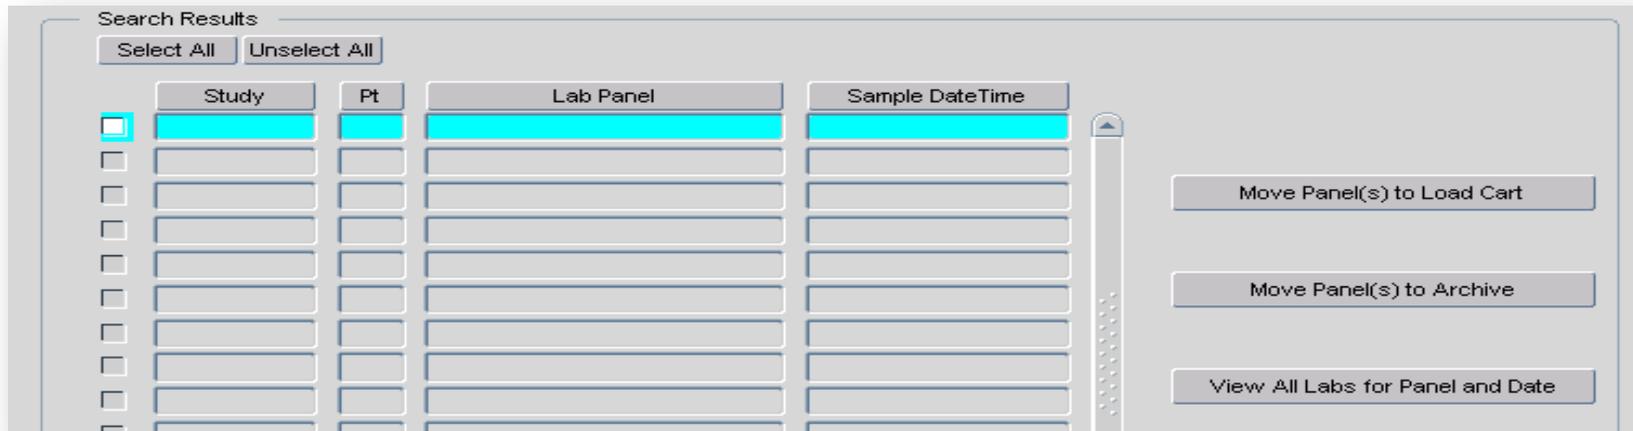

Search

New Search

- **Searching**

- Can search by Study, Patient Number, Lab Panel, OC Lab Question, Date and/or Time
 - Each search field contains Pick List.
 - Date and Time allows the ‘%’ wild card
 - Date and Time provide the additional option of:
 - “On or Before”, “On or After” and “LIKE” comparisons
 - Partial dates can be entered as %NOV%

LLI Search Screen Results

- **Search Results**
 - The result set lists Lab Panels that have at least one lab test available for loading that meet the criteria entered into the search fields.
 - The sort order can be changed using the column headings.
 - Results can be selected/deselected for processing by using the individual select check box or Select Buttons.
 - Entire panels of lab tests can then be moved to the Load Cart or Marked for Archive.
 - Clicking “View All...” button or by double clicking the record presents the Work Cart with specific Lab Test Results for that panel.
