

J-Review Requirements and First Time Use Instructions

J-Review Requirements and First Time Use Instructions

Requirements

1. Java Runtime Environment (JRE) version 1.8 later. If not installed, page will redirect to the Oracle's Java website.

Contact your IT support help desk if you don't have JRE installed or have an older version installed

First Time Use

Open the JReview Login page (<https://octrials-rpt.nci.nih.gov/>) and click on the **JReview Webstart** button. Java starts and soon after the JReview Login window appears. Enter your C3D account and password. The Database Server and SAS Server fields will be auto-populated. Click **OK** to login.

Once you login successfully, JReview will remember your user name and database and SAS server. You will only need to provide your password. It is recommended to **not** save the password.

The image shows a Java Webstart login window for JReview. The window has a blue border and contains the following elements:

- Database UserID:** A text input field.
- Database Password:** A text input field with a checkbox labeled "Save Password" checked.
- Database Server:** A dropdown menu showing "ncidb-p442.nci.nih.gov:ocprod".
- SAS Server:** A dropdown menu showing "ncidb-p442.nci.nih.gov".
- JReview Logo:** A logo consisting of the word "JReview" in blue and a graphic of four overlapping squares with different patterns.
- Version 13.1.0-1026**
- HTTPS mode**
- Copyright (c) 1994-2019**
- Integrated Clinical Systems, Inc.**
- Buttons:** "OK" (blue), "Exit" (grey), and "Advanced" (grey).
