O.M. Zack Howard, Ph.D.

Staff Scientist

Laboratory of Molecular Immunoregulation, CCR

Qualifications - My primary qualification is that I am willing to serve this organization. I believe that any group of unrepresented support staff is likely to be ignored and not given the voice that they need. I have been active in the organization having co-chaired the 2008 retreat committee, chaired the quad review committee for 2 years and acted as an organizer for the 1st officer elections.

Platform - We need to improve participation in the SS/SC organization. I keep seeing the same faces and I know there are more of us. I think we need to add a social component to the Frederick SS/SC organization and am willing to solicit participation and organize whatever the group feels is needed to improve participation. Yes you will be asked to show up and do something if I am elected.
